TWO ERRORS IN HORNELL REGISTRATION FIGURES

HORNELL, Sept. 6.—Owing to two unavoidable errors it was stated in Hornecl that the registration of the schools is 358 less this year than last instead of 117 less. The figures for the registration last year were taken from an issue of a paper of September 10, 1923, in which it said that the attendance at the high school was 740 and at the Washington school had only 209 pupils. This makes a difference of 531 in last year's total and makes the decrease this fall only 117.

"INDIVIDUALITY OF DRESS"

The Proper Use of Braiding

Slenderizes Stout Figures

By MILDRED BRYAN

Lecturer in costume design at De Witz-Reitzel Studio of Chicago, Special designer for various society women.

Braiding may be used on a dress for the purpose of giving either length or breadth to the figure. The woman on the left of the picture has used her braiding all wrong. The wide, vertical bands tend to increase her apparent size. On the right, however, the narrow, straight up and down braiding has a slenderizing effect. Especially good for the stout woman is a line up braiding running straight down the front of a dress or coat, giving an unbroken line in front.

Simple Mistakes Cause of Much Extra Work on Part of Post Office Employees

"The mistake most often repeated in addressing letters and parcels is the failure to give the right street address," declared Postmaster Wellington today, in discussing some of the errors people make. "Another mistake," he said, "is in giving the wrong city or town."

Often times Corning people who intend a letter or parcel for someone in another town, put the address "Corning" instead of the city where the parcel should go. This causes delay as well as extra work for the Post Office clerks.

Then too, there are Cornings in different states and if the state is not put on the letter, the letter may be sent to some other state. Corning often receives mail intended for a party in Cortland.

"Bill" Moore lost yesterday to "Tommy" "Bill" is a hot water heater and probably couldn't see a sweat yesterday.

It should prove a good battle at Imperial Park Sunday with Cusack and Dunkle opposing each other in the main event. Dunkle is a pickling ball about here as he has been back as we can remember and the young fellow is still going strong.

Gene Tunney, light heavyweight champion, and Harry Greb, welterweight, title holder, will meet in a ten round, no decision fight at Cleveland Stadium.

The reins that Edward F. (Pop) were held to victory in money on the American turf and they dropped when he met death in the South American States Fair, have been taken up by Thomas Barry of Pleasanton, N. J., an experienced horseman.

Selection of Mr. Barry to assume the reins of the horse that had been maintained by the late turfman was announced last night. Barry is a horseman and business manager of the race track.

Cleavage Kraft, the Babe Ruth of the league, has fifty runs to his credit. The young Tex., star is within a few runs of the record of the season. Kraft is a star in a situation.

The Mickey Walker-Brown world's heavyweight championship fight, scheduled for September 15 in New York, has been called off.

Thomas Thorne, obtained by the St. Louis Cardinals from the American club of the International league, reported to Manager Fred Hunter, St. Louis.

Pittsburgh shortstop and second baseman, Thorne, who was sent to third base, accepted six chances to play an error and made one.

Seven players on option were recalled to the St. Louis Cardinals by Manager George H. Sayer, St. Louis.

Pat Baker has also signed up as a pro infielder, Patrick Burke, St. Louis.

YOUTHFUL CHESS EXPERT
WINS RIVALRY SUPPORT

CHICAGO, Sept. 6.—Sammy Rosenwald, 12 year old chess prodigy of Detroit, four years ago defeated Julius Rosenwald, Chicago merchant, in a game of chess at the latter's home here. It is now apparent that those few moves may prove the most important in the series of moves.

Mr. Rosenwald is making arrangements to take over the direction of the series and to bring him to Chicago.

Rabbi Saul Silver, president of the Chicago Jewish community, believes the chess prodigy holds great promise as a Hebrew champion and a Jewish leader. Mr. Rosenwald is playing the chess game in the Chicago College, entering his expenses.

South Corning Has Slight Advantage According to Fans

Imps Figured to Lose Tomorrow's Game at Ingersoll-Rand Park But There May Be Reversal of Form

With one game to the good and Cushing pitching again Sunday at the South Corning baseball club is favored to win the series from the Ingersoll-Rand Imperials. What may be the deciding game will be played at 3:30 o'clock tomorrow afternoon at Imperial Park.

The main hope of the Post-out of the South Corning boys is the "Iron Men" who will be sent to the mound by Manager Woodward to check the South Corning boys. Dunkle has been pitching a great brand of ball this year and the Imperials back are confident that he will give the Imperials an even break in the series.

Lambert and Morse will replace Love and "Dutch" Woodward in the field. It is believed that this will give the Imperials a stronger batting order against Cushing.

Woodard, first base; Markert, second base; Combs, shortstop; Haas, third base; and Lambert, fourth base. The South Corning club will use Cushing, pitcher; Leary, catcher; Crossley, first base; Bennett, second base; O'Brien, short stop; Housley, third base and Norris, Manager. The Imperials will use "Dinky" O'Keefe and "Mike" Cannon will officiate.

THE END OF DEPRESSION
In Mulville there may be no joy. The hands no longer play; In Europe there are places yet Where life is drag and gray; But in the cheering college campus, But in the cheering college campus, For Bull Smith's back in Campville, And Bull can rock the chair.

There may be dull spots here and there Around the lighter earth. There may be places up and down But they are not in the earth. But you can hear the welkin ring And turn into a roar.

THE BRITISH ATTEMPT
The British attack, in the impending polo series, is sure to carry all they have. Great Britain has now lost four of the last five international matches.

The same is true of the British golf invasion, where there have been three consecutive reverses at Holyhead, the National and St. Andrews. There was a time when England and Scotland were sporting countries, but when the United States drew sport out in scattering localities.

England and Scotland are still sporting countries, but so is the United States from one ocean to the other.

Polo, for example, is spreading rapidly. Up to the last year of its playing strength has been confined mainly to the East. In a few years more there will be star players from every section, just as there are tennis and golf stars. There will not be as many stars, since the game is somewhat staggering, but there will be a far greater selection to pick from.

THE TANGLE
"How are you getting on, Willie-Firpo argument?" we asked one of the best pickers in the district.

"Not a cent either way," he said. "It's the toughest one I pick. I've ever run across, for there are too many unknown quantities. I find out as good as he used to be, could win. But no one knows just how good Willie is now—just how much steam he will have when the crowd starts. And no one knows just how Willie can about as good as anything might happen when these two meet, but it will be only a matter of time to call it a draw. The crowd is right as good as another—but none of them is sure enough to bet any regular money on."

ANOTHER COMPLICATION
A well known writer has called on the government to have golf prohibited by constitutional amendment.

Here we have the possibility of another bootlegging enterprise. Smoke screens and camouflage would be thrown up around the big fight of the golf prohibition. The government would come up and whap the golfers with a "pro-tem" order—only for a few years.

This would develop a flare of synthetic buttons and putting greens. The main idea seems to be that if a lot of people like anything it must be all wrong and therefore prohibited.

So far no one has thought of prohibiting food, water and air, but that will come. Possibly just at present they are not popular enough.

Too much golf is played, of course, by many of our earnest citizens. But too much food is eaten by even more. Just how to keep every one properly moderate in all things is still one of the intricate problems not yet wholly solved.

Another Writer Gives His Views Relative to Recent Contest at Hammondsport

Concerning the recent game between Hammondsport and Bradford, relative to which some confusion has been made among fans of both sides, the Hammondsport writer has the following to say:

As Cincinnati's old left pitcher had to conflict with apparently did the Bradford agriculturalists leave their threatening words to the Corning Leader about the recent game.

What follows is not written to antagonize any spirit merely to give baseball fans in the vicinity the facts as to the Bradford-Hammondsport game last ten days ago.

The management at Hammondsport strongly resents the "fact" which the Bradford writer furnished. The Bradford writer "respectfully requested" the Hammondsport management to refer to Rule 29, Section 1, of the Official Base Ball Rules, which reads: "Preliminary to pitching the pitcher shall stand in the box facing the batsman with both feet squarely on the ground and in contact with the ground with the pitcher's plate defined in Rule 29." The rule is very clear but O'Hara kept one back of the plate which is a balk. The constant did this at Bradford and got away with it.

Umpire Swartwood did not notice the pitcher's back in violation of the Bradford team in violation of Rule 41, which states: "The pitcher shall not touch the ground with either foot until he has pitched the ball." The pitcher immediately set himself on the bench assigned him as defined in Rule 41, and remained there until the ball is put out, except when called to the mound or to act as coach or as substitute base runner." The management is at a loss in trying to figure out where the players must be seated when playing in the box as there are no players' benches.

The Bradford writer goes on further stating that the members of the Hammondsport team placed members of the team close to the pitcher's plate. The Bradford writer states that the Bradford players were visible and shouted them to their batter. This statement is untrue. The Bradford players were not visible and did not shout. The Bradford players were not visible and did not shout.

Big Negro Fighter Meeting Firpo
Next Week Is Analyzed as Slowing up Some

NEW YORK, Sept. 6.—(A. P.)—Looking back over 95 battles which he has won, the Negro fighter, Firpo, is now in the midst of his most important engagement, that with Luis Angel Firpo, the Argentine heavyweight, who will meet him on September 11. Harry Wills, negro heavyweight, made a simple comment.

"I like to fight," he said. Looking forward to the five years active ring career which he considers still remain for him regardless of the outcome of the fight with Firpo, Wills said that with Jack Dempsey for the goal all pugilists, the heavyweight champion of the world, answered a query regarding his future.

Of his 95 battles, Wills won 44 by knockouts and 30 by decisions. He was knocked out once, four times by decisions. In two draws, 10 no-decision engagements and one exhibition, record books were closed.

The only knockout he suffered in his career was administered by a Chicago negro, negro heavyweight, who was considered by many observers as the hardest hitting man of his weight who ever fought. Wills was knocked out by Langford in 1918.

Wills, who was born in St. Louis, was a member of the "wild bull" team which was pitched against something of a safety and excitement at St. Louis. Wills was a member of the "wild bull" team which was pitched against something of a safety and excitement at St. Louis.

RED PIMPLES ON FACE AND NECK

Shin Dry and Itched and Burned. Cuticura Heals.

"My skin became dry, hot and itched, and my face and neck were badly affected with small pimples that were hard and red. The pimples were scattered over my face in small patches, and the irritation caused me to scratch the affected parts."

WEAK, RUN DOWN AFTER SICKNESS

Lydia E. Pinkham's Vegetable Compound Made Mrs. Dube Well and Strong

R. Hartford, Conn.—"After a severe illness I was so weak that I could not do any housework. My mother told me to take Lydia E. Pinkham's Vegetable Compound."

The first bottle helped me so much that I took six more bottles and felt fine. I have just given birth to a healthy baby girl and am feeling strong and well. So different from the way I felt before. I am taking the Vegetable Compound right along while nursing. The baby seems to be in good health, and my friends say they are a big change for the better."

"Mrs. Emma Dube, 80 Woodbridge St., R. Hartford, Connecticut. The Vegetable Compound is a splendid medicine to bring back health and strength. Many mothers have found this true, as did Mrs. Dube. There are women everywhere who know by experience the value of Lydia E. Pinkham's Vegetable Compound."

Former Sheriff in Seeking Nomination on Republican Ticket

Frank L. Norton, one of the five Republicans who are indulging in an eager scramble for the nomination as sheriff at the primaries this month, is making a county-wide canvass this week in behalf of his candidacy. Mr. Norton, who declares the fight for the Republican nomination is settled down to a contest between himself and W. B. Page of Arthrop, is now busy carrying his campaign to the first assembly district.

Mr. Norton declared today that he had received no attention from the endorsement by the Republican county committee, he would have the vote of the majority of the Republicans of the county. Mr. Page, who is a justice of the peace at Arthrop, is alleged to have been pledged the Ku Klux Klan support in that section, and is now busy making a speaking tour through churches.

Texaco! Sure!

Today more than ever before, seasoned motorists will allow nothing but Texaco to be filled into the crank case. They have learned that they can then drive without a thought of engine trouble.

This confidence born of experience urges them to insist on clean, clear, golden colored, full bodied Texaco.

They identify it by its distinctive golden color.

They buy it under the sign of the Texaco Star.

Run It With Texaco Gasoline
Save It With Texaco Motor Oil.

PLAN MOVES IN BOYS' DEFENSE

CHICAGO, Sept. 6.—In the event of a hanging decision by Judge John R. Caverly in the murder and kidnapping case of Nathan F. Leopold, Jr., and Richard Loeb, defense attorneys are understood to have under consideration two surprise moves by which they hope to carry on the battle to save the lives of the two boys.

The first would be filing of a petition in a court of equal jurisdiction, setting forth that the boys have become insane since the trial. This petition would ask that a jury be called to determine their mental condition.

The other move, it is understood, would involve two steps now before and the other after sentence is pronounced. The first step would be the presentation of a motion asking Judge Caverly to withdraw the plea of guilty now entered and change to a plea of not guilty. The second step would be a trial by jury.

CAR BARNS ARE FINISHED HERE

New Building at South Corning Will Cost Approximately \$15,000

The work of rebuilding the car barn at the Corning and Painted Post street railway at South Corning, which were partly destroyed by fire in the Spring of 1923, has now been completed and the installation of the machinery is now going forward. The reconstruction of the new work shop at the barns has cost approximately \$15,000. At the time of the fire during March of 1923, one of the work shops, together with the office and stock room was totally destroyed and the roof was burned off of the car sheds. The new building which houses the office and stock room, is much larger than the former one. This building is 32 feet wide by 75 feet long and is 20 feet high. The construction is of brick and tile. The windows are full length, the shades of which are steel making the building almost entirely fire proof. The floor is of concrete and at one end there is a switch with a deep pit which allows men to work under the cars. The extreme eastern end of the building has been partitioned off for the office and stock room. A new steam heating plant has been installed in this building and the plan makes an ideal work shop, in which men are employed regularly at the car barns which are used by both the Corning & Painted Post line and the Elmira, Corning & Waverly line.

Car No. 201 of the local line is now being rebuilt at the car barns. This car was taken out of service several weeks ago but has been used as an extra car unit this week. This car which is of the old type will be entirely redesigned and redecored before being put into service.

WILLYS-KNIGHT

Conquers the Vibration So Common in Motor Cars

From across seas, Willys-Knight imports a motor device that solves a problem as old as the automobile industry. It does away entirely with the engine vibration that manufacturers have sought for years to cure.

Willys-Knight announces the installation of this epochal invention as standard equipment and invites the public to test its amazing efficiency.

The Lanchester Balancer

This British invention, as simply amazing as it was long sought, gives Willys-Knight a new smoothness, a riding ease that brings the car to the peak of perfection.

It gives Willys-Knight an improvement that is considered a mark of supremacy in one of the highest priced foreign cars.

CEASE BEING TOOL IS URGE OF PRESIDENT

Coilidge at Lafayette Memorial Declares Attack on Courts is Danger Sign

(Continued from Page 1)
full sympathy of our government, have been attempting with apparent success to restore stricken Europe. We have acted in the name of world peace and of humanity. Always the obstacles to be encountered have been distrust, suspicion and hatred. The great effort has been to ally and remove these sentiments. I believe that America can assist the world in this direction by her example. We have never forgotten the service done us by Lafayette, but we have long ago ceased to bear an enmity toward Great Britain by reason of two wars that were fought out between us. We want Europe to compose its difficulties and liquidate its hatreds. Would it not be well if we set the example and liquidate some of our own? The war is over. The ownership of central Europe which rendered the security of the world has been overthrown. In its place have sprung up peaceful republics.

"Already we have assisted in refuting Austria. We want to assist in refuting Germany. We believe that such action will be helpful to France, but we can give further and perhaps even more help to France by bringing to an end our own hatreds. The best ways for us who wish our inhabitants to be single-minded in their Americanism is for us to bestow upon each group of our inhabitants that confidence and fellowship which is due to all Americans. If we want to get the best out of our country, we can get it by being true to our own minds. If we want France and the other allies paid, we can best help toward that end by assisting in the restoration of the German people, now shorn of militarism, to their full place in the family of peaceful mankind. "I want to see America set the example to the world both in her domestic and foreign relations of magnanimity."

SMITH GIVEN FINE REFUND

Corning Man Gets Money Back After Arrest in Waverly Recently

Percy M. Smith of East Second street, who paid a fine of \$3 in Waverly a few weeks ago on a charge of a violation of a parking ordinance, today received a check for the refund of this amount together with an apology from the Waverly officials. This was brought about by the efforts of the Corning Auto Club.
During the month of August, Mr. Smith, while in Waverly, was apprehended for parking his automobile in a prohibitive zone and was required to pay a fine of \$3. According to his version of the incident, which occurred after dark, there was no parking sign at the place and an indistinct marker which he learned later marked the action was not visible because of the absence of any street light. Mr. Smith also claimed that when he stopped at the point in question there was another car stopped just a few feet ahead of him.

Returning to Corning on August 25, Mr. Smith stated the facts to officials of the Corning Auto Club and an investigation was immediately started. This morning a communication was received from Secretary Lewis E. Matson of the Waverly Automobile club who states in part:
"Replying to your favor of the 21st of August, we regret very much that your Mr. Percy Smith was subjected to an unpleasantness and inconvenience while visiting our village recently and in the name of our Mr. Clark C. Bennett, formerly president of Endicott Auto Club and now president of the village, and in the name of the village board we extend to Mr. Smith an apology and herewith refund him \$3."
