## TEACHERS TO GIVE SUPPORT

Elmira Instructors to Aid Miss Rockwell in Appeal for Salary

Corning teachers will be interested in the actions of the Elmira teachers, which will be taken in view of the Elmira Faculty Academy faculty, the support of the teachers in whatever action she may take. She will appeal from the decision of the Appellate Division in the matter of the determination of the state equal pay statute.

Miss Rockwell, who brought a resolution to compel the Elmira Board of Education to pay her salary, stated in her letter to the state that she was not ready to decide just what will be her action. She will wait for the legislature to consider the suggested violations of the law. She will discuss the status of the bill with her colleagues in other cities and determine whether or not to appeal from the decision which upheld the action of the Elmira Board.

Miss Rockwell's state also appreciates the attitude of the local teachers, who apparently disregarded the action of the commissioners which promised increase in pay for teachers should it win the support of the legislature. The board had set aside \$20,000 as an emergency fund to be used in case of an adverse ruling made. It was stated at the time that this money would go to the teachers in case of an adverse ruling should the decision favor the board.

The school board won, which means that the teachers in the state should not appeal, but the board should not be paid. It would mean about \$100 more a year for each teacher. Notwithstanding the decision, the board voted to leave the matter of an appeal entirely up to Miss Rockwell.

## WOULD UNITE STEUBEN AND SCHUYLER IF GOV. SMITH'S IDEA CARRIES

State Chief's Recommendation Subject of Interest at Albany; Would Wipe Out Republican Majority

Introducing the wiping out of at least half of the upstate counties, Governor Smith's recommendation in his message that the Hughes Commission conduct a hearing in Albany, at least so far as he was not ready to decide just what will be her action. She will wait for the legislature to consider the suggested violations of the law. Steady afoot, or, at least, a steady, rural life, a picture of a simple life is shown in a photograph which has been collected for the Governor, which covers the period from 1894 to 1900. It is the result of a study of the history of the state in the senatorial district lines. No trouble will arise as to the assembly district in which the lines of drawing the lines of the senatorial districts will interfere. It is clearly described.

Another factor is believed to be the growth in the use of the automobile, which has been greatly reduced to minimums. Small communities are therefore no longer a necessity to the mind of the Governor. Added to this reason is the cost in maintaining county governments which would result from a consolidation program.

On the other hand, opponents hold that there has been no decided increase in the number of communities affected for consolidation and it is further held that such a move would be a bad idea, because of the increased county areas in the matter of lengthened trips to county seats for the purpose of filing legal papers and

## ASSISTANT IS BEING URGED

Stalker Proposes McLennan as Aid to United States District Attorney

Aroused over repeated up-ports of flagrants of the prohibitory law in the upstate portion of New York state, Congressman Hale H. Stalker has recommended to the Justice department that a new attorney be appointed as the deputy assistant United States district attorney to investigate all reports of violations of Volstead act and bring about specific prosecution in court.

Mr. Stalker recommended to Attorney General that Senator McLean be appointed to this post. McLean is theoughly in sympathy with the Volstead act, and he would fit into the job admirably, provided it is created. Mr. Stalker said that a special committee bill will be drawn which will meet with the approval of the Senate, and that the new district would remain unchanged.

The Republiam majority in the assembly, while on the other hand it would be hard to imagine that at least one-half of the upstate assemblymen would be satisfied with the present representation of 20 to 30.

The situation would be perfectly satisfactory to the Republiam majority in the assembly, while on the other hand it would be hard to imagine that at least one-half of the upstate assemblymen would be satisfied with the present representation of 20 to 30.

Any trouble in the legislature of the state will be taken care of by the new district attorney, and the new district would remain unchanged.

Steady afoot, or, at least, a steady, rural life, a picture of a simple life is shown in a photograph which has been collected for the Governor, which covers the period from 1894 to 1900. It is the result of a study of the history of the state in the senatorial district lines. No trouble will arise as to the assembly district in which the lines of drawing the lines of the senatorial districts will interfere. It is clearly described.

Another factor is believed to be the growth in the use of the automobile, which has been greatly reduced to minimums. Small communities are therefore no longer a necessity to the mind of the Governor. Added to this reason is the cost in maintaining county governments which would result from a consolidation program.

On the other hand, opponents hold that there has been no decided increase in the number of communities affected for consolidation and it is further held that such a move would be a bad idea, because of the increased county areas in the matter of lengthened trips to county seats for the purpose of filing legal papers and

## COMPOSER TO BE HONORED

Woman's Club Plans Program to Memorial to America's Edward McDowell

Everywhere throughout the country, in memory of America's famous composer, Edward McDowell, according to word of the Music Department of Corning Woman's Club, a MacDowell Memorial program is to be held in honor of this great composer.

The program is scheduled to take place Saturday, January 26, but of the local business men of the club it was decided to get the program on when the country was in the mood to have it, Saturday, January 26, at 8 p.m. The members will bring their friends.

Mr. and Mrs. Merritt L. Welsh, of Elmira, pianist and violinist, will be the principal artists of the evening. F. J. Rice, violinist, and Mrs. Leonette F. Hobson, pianist, will be the accompanists.

From this chance meeting friendship developed into something more, and in December they were married.

The largest increases were in the metropolitan district and Buffalo, where more than 42,000 more plates were sold and Erie County the second, with 12,000 more plates sold.

In Albany the number exceeded 6,225 the figures for the same period of 1925 and in all districts the sales were up, the difference the year was very appreciable.

The distribution of the plates this year was accomplished without the slightest semblance of disorder, and with a very noticeable increase in the number of the plates sold. The year previous to 1925, the number of the surface ships, which were made of wood, was brought to a standstill, and with no serious damage or loss of life.

Patrols now attached to the U.S. Submarine E-22. He made the voyage to Honolulu and returned to New York without incident.

He was greatly pleased with the cooperation rendered by the public and attributes the success of the plates to the fact that plates were made available for a period of nearly two months and that the public was not made to wait for the new year.

It has not been necessary to cancel any orders, and the abandonment of 1925 plates, the president of the large organization, said, was the result of the fact that plates were made available for a period of nearly two months and that the public was not made to wait for the new year.

## Your DEFENSE

Your defense is saving. You must have the protection of a fund of money put aside against the day you need defense. Next week is thrift week and Monday is the thrift event of the year in Corning. The third Monday of January you can buy the new 1926 Installment Shares in the Loan Association. If you have never before bought Installment Shares Monday is the thrift event of your life, the beginning of satisfaction in knowing you are defended. You can, of course, buy Installment Shares at any time during the year but it is necessary to pay back for the months that have gone before. Act Monday.

There is no better plan for systematic saving and investment. Not only from a standpoint of safety, not only from a standpoint of large earnings, or because it doesn't mean self denial but also and for the most part because while you are serving your own interest to the best advantage, you are sustaining the growth of our community.

The growth of any community is dependent upon the support given its citizens. If you fail in your cooperation, the city stands still or goes backward. If you uphold the town by sustaining it whole heartedly, you help yourself as well as the community. Help Corning to grow--help your neighbors to become home owners--help yourself to independence by the exercise of thrift.
