MARKET ENDS WEEK FIRMER DEMAND BRISK

Renewal of Merger Talk of Food Producers Attracts Buying of Those Shares

NEW YORK, Jan. 30.—(AP)—Stock prices continued to point upward in today's brief session of the stock market. Oils and rails were the main beneficiaries as a result of the usual week-end profit taking by professional traders, but new buying, particularly developed in the public utility and copper shares, several of which recorded substantial gains. Easy money rates continued to provide the krounwork for the advance. Bullish demonstrations were successfully staged in a number of specialties. Nash Motors soared seven points; and Canadian Pacific, Allied Chemical, Gotham Silk, Jewelry, Jewel Tea and Gold Dust sold two or more points above

The higher call money rate yesterday was regarded as temporary, and due to the withdrawal of funds in connection with month-end settlements. Because of several false starts, operators in the shares had difficulty in attracting a public following but Atlantic, Reading, Houston and Pan American A were all lifted a point or more above yesterday's final quotations. Food specialties also attracted major speculative attention.

the London column. Porto Rican gas advanced 2-3 1/4 points. Petroleum Central 2-1/2 and National Dairy Products one point before the end of the first half hour. Amusement shares swung upward under the leadership of Famous Players and Radio Corporation. Foreign exchanges opened steady, pound sterling again selling above \$4.86 while French francs are quoted around 377-1/2 cents.

Business Briefs

NEW YORK, Jan. 30.—The Public Service Corporation of New Jersey announces that approval of the 1926 construction budgets of its operating companies, including Public Service Electric and Gas Company, Public Service Railway Company and Public Service Transportation Company, brings the total amount now authorized for improvement of electric, gas and transportation facilities to \$55,000,000. New authorizations for 1926 total more than \$18,000,000 and construction projects already authorized

E. N. Brown, chairman of the board of directors of St. Louis and San Francisco railway, has been elected a member of the executive committee of the Chicago, Rock Island and Pacific as well as a director and is expected to be chosen chairman to succeed Charles W. Allen at the next meeting of the board.

committee. J. Hirschman, a director of the Frisco and a representative of Speyer and Company of the Rock Island, also has been elected a member of the executive committee.

Official figures of Safety Cable company show that actual orders booked this month are 60 per cent greater than those for the same month of 1925 while shipments for last quarter of 1926 were 20 per cent above those of the corresponding period the year before.

The Postum Cereal Company, which recently has been expanding its lines of food products, is located in Wall street to have made an offer of approximately \$1,000,000 for the California Canning Company, whose shares

HAND INJURED
NEGRO, KILLED BURGLAR IS
FATALLY INJURED AND ALBANY
PATROLMAN HURT IN BATTLEChauncey Hibbard of Addison
Sustains Injuries
on Protected Machine

ADDISON, Jan. 29.—Chauncey Hibbard suffered painful injuries Thursday while fighting on a protected rip-saw at the Park, Winston & True Factory when, in some manner he caught his glove in the saw, tragically mutilating the fingers of his left hand.

He was taken to the office of Dr. John M. Crane, who found that all the fingers on the left hand were badly injured. The ball of the thumb was lacerated and cut away. The index finger was badly cut at the third knuckle, and well into the hand, requiring many stitches. The middle finger was badly mutilated, and the bones of the finger broken and crushed in such a manner that it will undoubtedly be lost. The stitches were required to close the wound. The index finger was swathed at the second joint and the index finger was also badly lacerated.

The accident was one of the worst of the kind ever reported in the factory in many years, since the laws have been protected. Mr. Hibbard, who is married, is considerably from shock, and unusual nerve during the dressing.

COHOCEONCE
HARVEST IS ON

COHOCEONCE, Jan. 29.—The local ice harvest has begun and the full force of men is engaged in cutting and storing ice. The ice is cut north of the village. The ice which is about two inches thick and unusually clear and free from texture and the work of filling the 400 ton ice house for the winter. The Miller Dairy and Farm Products Corporation is being rushed as rapidly as possible.

NO NECESSITY FOR PENN
YAN-CANADIANA TRAIN

ALBANY, Jan. 29.—The Public Service Commission today dismissed the complaint of residents of Stanley, Ontario, against the proposed discontinuance of the Pennsylvania Railroad Company of train No. 8116 east-bound and train No. 8115 west-bound, between Elmira and Canandaigua. At the hearing before Commissioner Van Vorhis in Rochester, January 29, there was only one appearance in behalf of the complainants, a resident of Penn Yan, and no witnesses were presented to show the necessity of the train.

The railroad showed that the revenues failed to pay sufficient expenses, the deficit in May, 1925, being \$186.75; in June, 1925, \$28.32; July, \$1,074.48 and in August, 1925, \$1,074.48.

The railroad also showed that a large part of the expense of the train came from school children, between Elmira and Penn Yan who could be accommodated by the extension of a bus route to the charter school.

ESCAPED LUNATIC TERRORIZES
NYACK WITH NIGHT ATTACKS
ON ITS WOMAN INHABITANTS

NYACK, Jan. 29.—(AP)—A nocturnal murderer, believed to be an escaped lunatic, is terrorizing the quiet Hudson river village with attacks on its women inhabitants.

Already four women have been approached by the intruder, and police, aided by state troopers and a posse of volunteers, are hunting for clues in the area and surrounding countryside.

The latest victim was Mrs. Edward Towt, who escaped from the unknown assailant last night after knocking a blow and encountering two other persons, who frightened the supposed madman away. Mrs. Towt, Thursday and Friday nights.

England manufacturers are still expecting the public to remain content with the goods of the day of the bazaar; and still another, that the present need is "fewer dead hands and more live wires, less self-satisfaction and more imagination, more forward push and fewer kicks, for a good offense is better than the defense ever conceived."

The Word of God

Beginning with the first chapter in Genesis, and starting on January 1, we offer in our daily "From the Book," a consecutive, comprehensive and systematic study of the Bible. Through these daily selections of Scripture, the most interesting and instructive lessons in the Bible are told in terse form.

The psalmist has well said: "Thy word is a lamp unto my feet, and a light unto my path." No mariner's compass ever guided a storm tossed vessel over the billowy deep into port with more surety accuracy, than will an observance of the teachings of the Word of God, lead a soul over the most difficult, the most dangerous and at times seemingly impassable barriers in the journey of life.

It will require three years, using a selection daily, for "The Leader" to go through the Bible. If our readers will read these selections as they are given in print, and millions will read them, at the end they will have a knowledge of the Word of God which will prove a priceless heritage to them in after years.

Fortunes That Have Made Fortunes

It seems to be the popular thing nowadays to attack the man who possesses a great fortune, as if the ownership of great wealth denoted a life of crooked dealing.

It is true that unscrupulous people have succeeded in accumulating great fortunes, but the largest fortunes of America have been accumulated by honest men who were also accumulating fortunes.

The McCormick millions were accumulated through the manufacture of reaping machines. When Cyrus McCormick invented his first grain reaper the average world field included but little more than 20 acres. Every farmer was limited to the field that he and his hired help could harvest.

When Hockefeller entered the oil business he was selling for 90 cents a gallon and was of an inferior grade. The laboratories of the Standard Oil Company, however, produced, by perfecting better means of distillation and by organized marketing, have made it possible to sell gasoline at 10 cents a gallon and kerosene cheaper than the average town than Atlantic ocean water.

The Bell telephone made possible for millions of people who owned little patents and developed the business, but every business man knows that the little instrument at his elbow has been worth thousands of dollars to him in time saved and business expedited. The lives that have been saved by the telephone cannot be computed. America has more telephone per capita than any other nation in the world and is correspondingly rich by many millions.

When the Eastman company began developing their business a photograph was a highly expensive luxury. Today we stand as we go and bring the vacation trip or European tour back with it. The Eastmans have made millions but millions of families all over the world are richer in tender memories.

Public utilities, railroads, gas companies, electric lighting corporations and the like have made millions for the investors and the management but the public has also made millions in improved living conditions, conveniences and savings of time and money.

The Great Northern railroad made James J. Hill a multi-millionaire, but it also made every farmer along its right of way richer because it put a market at his front door. His acres and his produce became many times more valuable because of that railroad.

Every great fortune in America has been made while the public has been making a fortune.

JOHN NUIE, THE NATURALIST

It has been interesting in reading the life of this loved and honored student of nature to hear of his love for all the creatures of wood and field and stream with which he came in contact through the long years of his intimate association with the wilds of Maryland.

"To him," says his biographer, "the most interesting thing about an animal was its mind as it was to which it put the same in this he differed widely from John Burroughs, who seemed to become a more and more outspoken champion of the mechanistic theory of animal behavior which explains the actions of animals in the terms of blind instinct. It was refreshing and cheering to hear him go after the so-called animal psychologists and behaviorists bent on making out, in some cases at least, that animals are nothing but machines in fur and feathers."

"It ought to be added," continues the author, "that Muir was early in 1877 confided to his pocket book his belief that one of the greatest hindrances to a fruitful study of the intelligence and individual characteristics of animals was the average human being's insufferable self-conceit; that his biographer magnifies his lordship of creation until he is incapable of seeing that animals are our earth-born companions and fellow-mortals."

To the fact that the lord-of-creation idea has an abominable origin he attributed the fact that the "scientific" good and orthodox are the first to cry heresy on everyone whose sympathies reach out to the half-brutish and the boundary epidermis of our own species. Not content with taking all of earth, they also claim the celestial to turn into the celestial country as the only one who possesses the kind of soul for which that impudently omnipotent was plucked. He denigrated that often mean, blind, loveless doctrine that animals have neither minds nor souls, have no rights that we are bound to respect, and are made only for man to be petted, spoiled, slaughtered, and enslaved.

Muir was a deeply religious man, never mind all the problems that arose. Today we stand as we go and bring the vacation trip or European tour back with it. The Eastmans have made millions but millions of families all over the world are richer in tender memories.

Public utilities, railroads, gas companies, electric lighting corporations and the like have made millions for the investors and the management but the public has also made millions in improved living conditions, conveniences and savings of time and money.

In It'll Old New York

By O. O. McIntyre.

Copyright 1926 by The Evening Leader

NEW YORK, Jan. 26.—Thoughts while strolling around New York City on West Forty-Seventh Street that is always torn up. A movie camera with jangling spurs. One armed woman hawking fur and pamphlets.

Percy Mackaye, tall, fat, blue building parents, ship windows, blushing with feminine trip-lap, Murray's shoppers. Like a squirrel in a cage, G. D. Wilson's standing collar. The cable car continues to cling to the old Delmonico corner. And rarely has a face.

Gleaming girls leaving ten rooms. Gentlemen with flasks. New York is becoming a hive town. Gloria Swanson, French husband. What price Gloria? A cigarette millionaire from a Riva ghetto. A mansion on Park Avenue. SHOP ADVERTISEMENTS: "Military brushes for women." Handsome Gene Mackaye, the Chicago critic. Madison Avenue's antique district. Grandpa's bitter bottle sells for \$49. Cream platters and crockery dogs. Blue glass setting here.

The little cafe that James H. Huxley used to frequent. And the sandy mansion "with glass porch pillars that a romantic Walt Street swindler built. Ladies in double-breasted mannish coats. And carrying cases. Where will the invasion of men's rights end?

PEDIGREE At luncheon time. The shimmer of pearls. Blue shirts a la Prince of Wales. The cold caparisoned lacquer who that crowd. The better of the conversation—as swift as a pelt. rain. Covetous. The caricature.

WONDER If I'll have to pay the check? Or merely sign it. Why can't each dinner have just one knife and one fork? And abolish French sauces. No American food left in New York. Roman steak, Roman biscuits. Roman punch. Business of chasing myself around the Aeropolis.

In the News

TOO MANY TACOS
NO COAT, NO FOOD

There are 400 styles, sizes and varieties of coats, when two or three are all we need, says Secretary Hoover getting down to carpet talks in his complaint against wastes in the industry. Special machinery is required for each of the 400 kinds of coats, adding to this much needless expense and overhead and cost to the consumer in this line of manufacturing. . . . In his crusade Hoover may save consumers 2 billion dollars a year if his doctrine is heeded, and in case of tactics, perhaps there might then be fewer in the road to "suspense time."

No man in his shirt sleeves may be served in any of Fred Harvey's eating houses on the Santa Fe railway. But Mr. Harvey is accommodating nevertheless. For those who happen to come along clothes he has a rack full of suits to loan which they may wear while they eat.

NATURE TALKS and WALKS

CONDUCTED BY O. S. E.

CAUSE OF DEPLETION OF GAME

The gradual depletion of game and wild life in Pennsylvania is due chiefly to reduction in timber supply. That is the belief of Seth L. Gordon, Executive Secretary of the Pennsylvania Board of Game Commissioners, whose views are quoted by the Pennsylvania Public Service Information Committee.

It is not generally realized, Mr. Gordon points out, yet wild life and game have always been inseparable. Wild life and civilization never flourished in desert regions. Nor are wild life and abundant streams of water found in a forest area. The latter has been stripped either by lumbering operations, or by fires which often follow the cutting down of woodlands by careless and unscientific workmen.

Water companies have found it difficult, in protecting the watersheds from which they draw their supply, says Mr. Gordon. Some of these have been leased and protected by the state. Others have been guarded by the companies, which were obliged to reforest them as needed.

These watersheds are, of course the most desirable areas for game refuges, and many water companies have leased the hunting rights to the game commission, which assumes responsibility for that region.

General adoption of the plan of turning watersheds over to the state by the water companies, believes, as in this way they would be relieved of much responsibility and their streams and forests would be better guarded. And wild life and all kinds of game would increase.

IN THE PRESENT

The Yogi makes this guess of your coming year: FEBRUARY, 1—Your birthday indicates that you will spend an active though unimportant year. You will make some progress. In August you will have a narrow escape.

FEBRUARY 2—Expect a trying year in love or domestic affairs. You will be misunderstood though circumstantial evidence but if you keep your head and your heart true you will be the happier for it.

FEBRUARY 3—If you are unmarried be very careful in your love experiences this year or you will have a life of unhappiness and disappointment. If married you will face a decision that will make or mar your married life. You will have unexpected luck in money affairs.

FEBRUARY 4—You have probably ordinary comfort.

Your next Car should be a BUICK

For Comfort's Sake

The Better Buick offers every ordinary motoring comfort, and many that are exclusively Buick. Faster starting—a new, high-speed starting motor does it. Smoothing running from the go—Automatic Heat Control is an exclusive Buick feature. Faster steering—Buick's 5-coupled steering gear is the most expensive and most efficient type today.

For Safety's Sake

Buick surrounds you with every ordinary protection, and then adds Buick protection: Buick dependability, which takes you and brings you back, on time, all the time. Buick mechanical safety, which is so fluid in time to expand contract or leak away. And Buick Controllable Brakes.

Headlights, with steering wheel control, which make night driving a pleasure.

For Economy's Sake

No other car has the "Sealed Chassis" and the "Triple Sealed Engine." The "Sealed Chassis" lowers operating costs by enclosing every operating part inside a dirt-proof, oil-tight housing, while "Triple Seal" closes every engine point of entry to dirt and the wear dirt causes.

For Value's Sake

At present prices, Buick with all of its added comfort, safety, and economy, is easily the greatest automobile value in the world. If you want finer transportation at lower cost, come in and see the Better Buick!

Certificates of Graduation

At the Assembly, Friday morning of this week, Mr. Kellogg, president of the following young men:

Mr. Harris Hunt of Rock Stream, N. Y., from the Junior Accounting Course; Mr. Robert Phillips of Corning, N. Y., from the Junior Accounting Course; Mr. Paul Patterson of Newark Valley, N. Y., was not present to receive his certificate from the Junior Accounting Course.

The management and faculty of the Institute wish for these young men a most successful career.

Student Wishes

The students and faculty of the Meeker Business Institute join in extending their best wishes to the former students who have decided to join their careers in matrimony and face life together. Miss Frances Schick of Elmira Heights, N. Y., became the bride of Mr. Kenneth Neal of Wellsville, Pa., on Monday January 25.

Best wishes are also extended to Mr. and Mrs. Grant Washburn of Washington, D. C. Mr. Washburn was a student of the Institute some time ago.

Basketball

The Meeker Team played two very exciting games this week and through losing by a small margin in each they feel that they gave their opponents a fast game.

Tuesday night they lost to the M. H. A. 25-25 and on Thursday night they lost to Addison 26-25. On Saturday night Jan. 29 they expect to play Corning School team at Corning.

Assembly

The student body had the honor of hearing the County Judge Herbert L. Newman at the assembly this week. Mr. Newman gave a very stirring message to give and the students received a very good lesson from his talk.

He went on to mention that the Judge was once a Meekerite himself and through years of honest work has attained the office which he now holds. We consider Judge Newman one of our friends and hope that he will come again.

At the assembly next week, the student body are promised a treat when Mr. Robert K. Thompson, the nation dollar money expert, will address the students.

The Meekers

We are very glad to know that Mr. Meeker and family are returning from Florida. Mr. Meeker will be at the office again the latter part of next week.

Mary Helen McCarthy

The management and faculty of the Meeker Business Institute join with the many friends of Miss Mary McCarthy of Corning, N. Y., in extending a sympathy to the family.

To Prospective Students

Many young people take advantage of the privilege of being in their education at any month during the year. Classes are formed at Meeker's on the first Monday of each month. Many young people will start their commercial training on Monday, February 1 in the various departments of the school, entering at the same time as the young people prepare for a position at a much earlier date than at the same time take advantage of time which is ordinarily wasted during the summer months. The Meeker school has a record of having students who begin each month of the year and classes are held each month. Information will be furnished free upon request.

in Smoothing Out of Misunderstanding
Relative to C. F. A. Athletics

The basketball team scheduled for tonight in the Academy gym with Oran High School, was played and it is probable that other games among the schools of the county will be played. The game was played, and out of the County League will be played, according to Guy W. Cheney, athletic officer to the Board of Education, who this morning called a conference with the basketball team and explained the situation which faced the school.

The parents agreed to sign the cards distributed by the school officials and which absolve the school in case of serious injury to a player.

The game will be played and the regular school team will be in attendance, their suits being returned to them before the contest which is scheduled for 9:15 o'clock.

Regional Conference in
Hornell Thursday

Mrs. George F. Ruddy and Mrs. Lenora Rice were chosen delegates to represent the W. C. T. U. at the regional conference in Hornell next Thursday. The meeting of the union at the home of the Misses Russell of Cedar street Friday.

Other important business of the conference will be the election of Mrs. Rice as secretary of the organization to take the office left vacant by the death of Mrs. H. T. Shaw. Mrs. Rice had been appointed as secretary of the union during the interval between Mrs. Shaw's death and this meeting.

It was decided to pack a box of books to be sent to Ellis Island in the near future. Any one having books which he or she would like to donate is asked to leave them at the home of the Misses Rice and Anna Russell as soon as possible.

Books for children are especially needed. These books will be shipped to Mrs. Marmorek, the W. C. T. U. representative at Ellis Island, who is a mother of the Misses Marmorek who was in Corning last autumn representing her native land of Turkey with the League of Nations of the United States.

The union also decided to hold a Willard Memorial Service and social some time after Wednesday, February 17. There was an attendance at the meeting, despite the extremely cold weather.

Woeppel Machine Works Damaged
by Grease; Supports and
Windows Broken

Considerable damage was caused to the A. H. Woeppel green house on Park avenue, about 11 o'clock this afternoon, when a car said to be driven by Edward Heath, of 113 East Erie avenue, crashed into the front of the building, breaking down the door and wooden supports and smashing several panes of glass. No one was injured but the car was badly damaged.

Mr. Woeppel said that he did not see the driver but that he understood that the accident occurred when Heath lost control of the machine when attempting to steer it around the corner of the car tracks. No report of the accident was made to the police, outside of the fact that Mr. Woeppel informed the department that an accident had occurred and that Heath would make a complete report.

Off One Street

Considerable comment is heard of the city today as the result of the action of the Board of Public Works yesterday in refusing to permit the roping off of a section of the city from Corning Lons Club to set aside one of the hill streets for coasting. There was a large crowd of youngsters on Wall street evening especially on the hill street. There was a narrow escape reported.

Wall street seems to be the favorite place for coasting and the street there was a place of ice last evening so that the sleds could coast for coasting purposes and the street there was a place of ice last evening so that the sleds could coast for coasting purposes and the street there was a place of ice last evening so that the sleds could coast for coasting purposes.

CONCERT-MINSTRELS
TO BE GIVEN MONDAY NIGHT

The Odd Fellows-Concert Minstrel evening, to be held Monday evening, is being repeated by request and also due to the fact that the concert was so well received that it should be repeated. The original performance, held some two weeks ago, it will be repeated on Monday night at 8 o'clock sharp.

The concert, which includes the talented "Ensemble Quartet" as a headliner, is a big attraction in itself. The four men give a program including solos, duets and quartets, many of which are new and never before heard. The assistance of "Zero" and "20" will be given by two vocalists, who are charming and droll comedians. The entertainment of a comedy entitled "The Engagement" will be given, which produces plenty of laughs. This is an original skit and is a new one. The music part in a clever manner. After the concert dancing will be enjoyed.

DEATH

Arthur J. Dell, of 14 West Putney street, received severe injuries from a fall from his window on Saturday night, which resulted in his death on Sunday morning. He was 54 years of age and was a native of New York. He was the son of Mr. and Mrs. J. H. Dell, who formerly resided in this city.

NEAR CRASH
IS AVERTEDFiremen on Way to Blaze Have
Difficult Time in Avoiding
Coasting Accident

What might have been a serious accident was narrowly averted at the intersection of First and Wall streets last evening, following the stopping of the fire bell, when a bolted load of coasters glided across First street just ahead of a fire engine en route to the fire.

The fire apparatus had just passed the scene and the coasters, believing that the traffic was cleared on First street started out on the fire engine. The coasters were far sighted enough to realize the danger from traffic on the cross streets and had quickly stationed with flashlights to warn the coasters of approaching vehicles.

Many people are strongly opposed to coasting whatever on the north and south streets, and point out that if coasting be allowed that should be on the hill streets which extend east and west and thereby eliminate a large degree of the danger.

Others feel that if the city at all will not take action to designate one street for coasting purposes that Common Council should prohibit coasting entirely. Motorists who frequent the hill streets are strongly opposed to coasting in the locality not being aware of the presence of the coasters and that due to this ignorance a serious accident might occur.

The extremely warm weather of today has thawed the snow on rapidly melting and it is almost impossible tonight but the weather is forecast to be very warm in the near future and it is believed by many that this is an opportune time for the city administration to take some action in regulating coasting. It is said that it would be better to take away the fun and pleasure of the winter sport than to allow conditions to continue that might lead to the death or serious maiming of some citizen.

DEATHS-FUNERALS

Thomas Lynch

The funeral of Thomas Lynch, former resident of this city, who died Wednesday at his home in New York City, was held this morning in St. Mary's Church following the arrival of the remains on the New York Central railroad at 11:30 o'clock. The Rev. James Griffin officiated. Burial was made in St. Mary's cemetery.

METHODIST MEN CHURCH GUESTS

First M. E. Brotherhood Entertains Elmira Heights Men at Dinner

enjoyable of men's gatherings was the banquet of the Men's Brotherhood of the First Methodist church held in Recreation Hall last evening. A fine dinner was prepared and served by the Senowen Class. Joseph L. Andrews was toastmaster and in his usual clever manner entertained with witty stories. The music for the occasion proved a happy surprise. Dr. Clyde E. Fife, evangelist and his brother Bob Fife, musician, and both of them real artists, who are both

Dr. Fife is a pleasing singer and a talented violinist while his brother plays an assortment of instruments including the trombone and euphonium and has conceded the world's greatest hand saw player. He is also a singer of much ability. Brother Bob gave selections on the hand saw that proved a most wonderful treat. The brothers sang a duet which was very pleasing. All their numbers were enthusiastically received and the men were unanimous in their praise for the fine program. The chorus singing of the evening was under the direction of Dr. W. W. Shaver. The Men's Glee

Another pleasing feature which added to the occasion was the visitation of Dr. Ernest Matthews, pastor of the Oakwood Methodist Church at Elmira Heights who addressed the men. He was accompanied by a delegation of 12 men from the Oakwood Brotherhood Class, Charles Owen and Al Laird of the visitors were called upon for remarks. Their talks though

Dr. Matthews gave a brilliant talk choosing as his subject "The Lifiers and the Leanners." He said in part: "Someone has divided mankind into lifers and the leaners. We know that there are the leaders and also the leaners. There are those people who because of certain inborn tendencies constitute a great handicap on society and we are carried along by this handicap which is one of the most

serious problems of today. Of the large group of people who are the leaders of society are the mentally deficient, the insane, the pauper, the criminal class, the drunkard and the dope fiend. And other people who want to see the world progress are pulling with all their

speaker of the evening to honor him. Dr. Matthews was paid a high tribute. Dr. Matthews was a classmate of the Rev. H. A. Hares in college and he recalled the deep friendship that developed while they were students. In opening his talk Dr. Matthews also gave a glowing tribute to Mr. Hares and declared that his meetings were pleased and enlightened by the talk of Mr. Hares. He gave them many valuable ideas and suggestions. He also said a wholesome spirit of fraternity between the two classes should be developed.

COAL

Better still she is more

Never more so, than in the present fuel emergency. We have urged you to order well ahead of your needs. After visiting some of the largest and best distributors we find very little prepared or screened low volatile lump coal offered for prompt shipment. Worlds of the

mokey high gas kind but
that is a poor and danger-
ous substitute for hard
coal. We have a splendid
stock of Vintondale lump,
more heat and less ash but
more friable than either
Anna S. or Washed, the
supply of which is limited.

Don't forget Cannel, the
best range substitute.
Our prices

Washed Egg	\$12.00
Anna S. Lump	\$10.50
Cannel	\$10.50
Intondale Lump	\$9.75
