From the Book

THE LORDS SIDE—These Messes stood in the gate of the camp and said, Who is on the lords side? Let him come out. And all the sons of Levi gathered themselves together unto Moses, and said, We will be with thee, whosoever thou art, because we have seen what thou hast done unto the Egyptians.

Sugar as an Issue

It is reported from Washington that the opposition to the administration, starting through an investigation in the Senate of the Tariff Commission, is endeavoring to make the sugar tariff the paramount issue in the coming campaign.

The tariff on sugar is one of the schedules most eagerly defended by the advocate of protection to American industries. It is the theory of the sugar tariff proponents, that this duty on foreign sugar affords protection to the American sugar grower which the American sugar grower, by the inability to languish and suffer.

It is the theory of the free traders that if this tariff were taken off the price of sugar would be lower. The sugar industry is now pretty much a trust, just as the rubber growing industry is a trust. So when competition is killed off, there would be nothing to prevent the sugar monopoly from doing exactly what the rubber trust has done—namely, raise the price to a figure that would remind us again of war time prices.

Rubber manufacturers are now selling us that the way for American rubber users to protect themselves from foreign competition is to grow their own. What is true of rubber is true of sugar. If we want to protect ourselves from a foreign sugar monopoly we want to provide it with competition by continuing to grow our own. Not only will this help the next generation, it will eventually assist the corn farmer too, because corn sugar is going to become an important American commodity in the near future.

U. S. and the League

British newspapers are editorially expressing the opinion that the squabble over the council seats in the League of Nations will delay the ratification of the United States to the League and damage League sentiment in the United States.

What Europeans seem unable to grasp is that under Coolidge, France is not contemplating joining the League of Nations. Few people in America will begrudge France the more thankful that the United States is not a League member but it will not postpone our ratification of the League covenant because no such ratification is contemplated by any controlling following of the League in the United States.

Nonetheless the way League politics has been handled at Geneva during the past few weeks will make those kind of Americans who are more thankful that the United States is not a League member but it will not postpone our ratification of the League covenant because no such ratification is contemplated by any controlling following of the League in the United States.

attended the disarmament conference. But this did not mean that the United States was contemplating joining the League of Nations. It is reported at Washington, that the reason for the delay of the disarmament conference was that the European nations desired to find out whether the United States was not ready to join the League of Nations in international affairs. Commenting on this disposition the Boston Transcript newspaper writes more than friendly to the administration says: "The European countries anxious to get the United States into the League will be sorely disappointed if they really believe, as reported, that recent events mean this country has changed its opinion regarding joining the League. Settlement in Washington is a strong adamant membership in the League as it ever has been. If the disarmament conference really has been delayed for this reason, the quicker it is called the better."

Why We Protest

Representatives of British labor have been sent to America to investigate conditions and to find out, if possible, just why wages had fallen conditions in the United States for the working men are so much higher and better than in Europe. In America the working men are the most part have comfortable homes, plenty of nourishing food, and in many instances automobiles to go to and from their daily work. Conditions such as these are unheard of in Europe.

It is said that the British workers are finding out that our working men prosper because of their efficiency, the greater output of their efforts, through the practice of mass production. This is doubtless true, but might it not be worth while, also to inquire as to why conditions have come about which make possible the present situation with regard to our labor?

Of course the American worker is intelligent and efficient, but this is the intelligence and efficiency of a man who has grown up in good conditions rather than the cause. It is the fact that he has a comfortable home, plenty of nourishing food, and in many instances automobiles to go to and from their daily work. Conditions such as these are unheard of in Europe.

Rubber in Philippines

General Leonard A. Wood said in a recent statement: "I am perfectly certain that rubber can be successfully grown in the Philippines as coconuts and will greatly benefit the people. There is no reason to believe that the farmers cannot grow it as profitably and successfully as the natives of Sumatra or Borneo."

It may be a fine thing that Uncle Sam could develop his own rubber plantations in the Philippines as a protection to his great rubber monopoly. But if rubber can be grown there with profit to the natives themselves and to America, this will furnish another reason to a great many of our professional shysters, who in the Philippines should be given their freedom at once.

For there are a great many people, thinking themselves good citizens, who seem to consider it a crime for Americans to succeed anywhere, especially when their success is in some way to the interests of some European nation. They of course want to see the Philippines do well, but not at the expense of the American people. From their point of view, the Philippines would be better off starting to death in "Freedom" than waxing prosperous under American rule, especially if American business interests might be sharing in the prosperity.

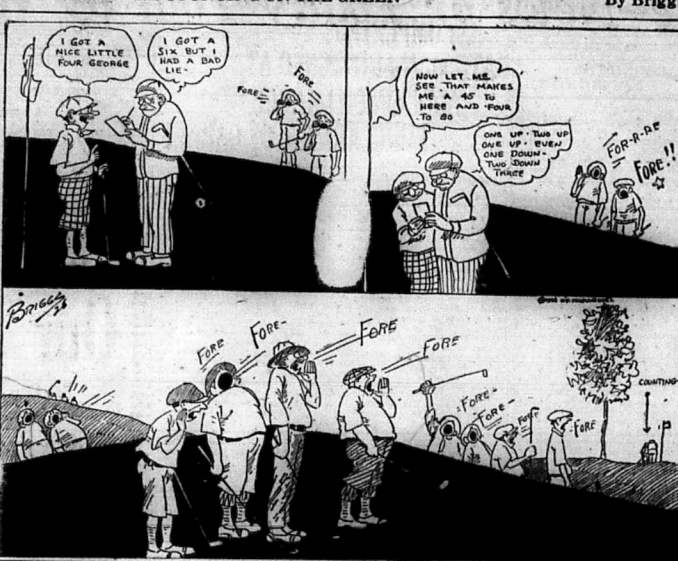

No More Flabby Thinking

We Americans are flabby. Our statutes as cur-alls and there is growing opinion that what really is needed is more straight thinking in politics, industry and in everyday problems, including the suppression of crime and the promotion of law-abiding people. The flaccid growth of blabby thought is particularly evident, although perhaps not any stronger than in other affairs, in the attitude toward crime. Straight thinking is needed by the general public if crime is to be suppressed. That criminal pit where they belong, And the same rule holds good all the way down the line. If this can be encouraged we shall bear less about juvenile delinquency, crime tides and some of the other disagreeable phenomena of our times.

CLOCKS AHEAD

Sentiment for Daylight Saving in Corning This Summer is Strong

From various test polls held in local factories, business places and homes it is evident that sentiment for daylight saving in Corning this summer is strong.

Probably during the coming week a request will be put up to the Common Council to enact a daylight saving law for Corning. Recently Corning Glass Works at the request of many of its employees held a poll with the result that in practically every department the employees declared unanimously for daylight saving hours.

The Ingersoll-Light Company plant during the past week also put up the question to its department heads with like results.

At a recent meeting of Rotary which is the possessor of the largest unified group of business men and employers in the city and which represents a cross section of every classification of industry its members declared unanimously for daylight saving.

Without such an ordinance confusion would ensue. With such an ordinance the whole community would be set one hour ahead and remain so during the summer.

The Corning & Painted Post Street Railway Company has, it is understood, assented to the request that it will be glad to rearrange its car schedule to fit in with daylight saving. It is adopted.

Daylight saving is popular with all city people if generally adopted. If some factories are on daylight saving time and others are not and business places generally do not observe daylight saving hours very little benefit comes of it, because business interferes with the enjoyment of the hour that is made possible in the afternoon.

When the whole community joins in the movement the long afternoons and the social, collective and individual enjoyment without interference with work or business is a benefit which is passed by the city which effect satisfactory observance of daylight saving and those who favor it will ask Common Council to take steps favoring the same. If no sentiment against it develops it is probable that the Common Council will pass such an ordinance putting the clocks ahead an hour and daylight saving on a city-wide basis.

STORE WINDOWS ARE BROKEN

Small Stones Hurlled by Passing Automobiles Cause Damage at Two Stores

One of the large windows in the Wing and Boatwick department store was broken early in the morning by a stone propelled from the street by the wheels of an automobile. The window is located on the northern end of the store on Bridge street and the hole made in the glass is very small. The stone was evidently not traveling fast enough to pass entirely through the glass without cracking it as is the case in some instances of this kind. Neither is it moving so slow that the glass was only cracked because a small hole and a large crack are both apparent in the glass. The glass was valued at \$150.

A case similar to this was the breaking of the window in the cigar store and pool room belonging to Jerry Sticker which occurred a few days ago. Mr. Sticker's store is located directly across the road from the Wing and Boatwick store. The glass in this case was cracked the entire length but a hole was not made in the glass.

Both of these accidents are due undoubtedly to a few pebbles which were left on Bridge street in front of these stores a few weeks ago. It is said, when the pavement was torn up in order to fix a gas and water leak.

GLEE CLUB MISTRELS AT MONTEREY SOON

On Monday evening the Men's Glee Club of the First Methodist Church will meet in Recreation Hall for rehearsal. It is urged that all members of the club be present at this rehearsal is for the purpose of getting ready for the Glee Club's Musical Minstrel which will be presented on Wednesday evening of next week at Monterey.

A Good Driver Hits on All Six 1-He has a high degree of self control at all times, this control manifesting itself in various ways. 2-He maintains his car in such shape that it responds quickly, thus assuring control of that car from a mechanical standpoint. 3-He regulates his speed to accord with the conditions of the road, never traveling at such a rate that he cannot stop within the "clear course" ahead. 4-He exercises due regard for the rights of others, applying the simple rules of courtesy. 5-He accepts the safety of pedestrians as a primary consideration. 6-He keeps his mind on the road ahead, as day dreaming and chattering at the wheel cause more accidents than are caused by bee stings. If you are hitting on all six you are doing your part to promote safety as far as actual driving is concerned. The first step, however, is the acceptance of a high degree of personal responsibility—that comes from liability insurance. Our organization offers an insurance service, that is expert, friendly, complete in every detail. W.S. & J.J. McCarty, Inc. INSURORS First National Bank Bldg. Corning, N. Y.

HORNBY

HORNBY, Apr. 17.—Miss M. Murray of this place was taken by Mr. and Mrs. J. P. Howell to Elmira, Tuesday, where she underwent an operation for the removal of a cancer on one eye. Miss Murray expects to remain about two weeks.

WHAT A SURPRISE!

It is news to some people when we tell them they won't have to leave a large amount of space in order to have a bath room. Lots of homes have waste space where a bath room could be put in a small spare room or closet—sometimes hall space. We will be glad to give you the benefit of our years of experience and will advise you as to size, location and cost.

MRS. KETCHUM IS PRESIDENT

Elected Head of Woman's Study Club at Dundee; Mrs. Smith Vice-president

DUNDEE, Apr. 17.—The Woman's Study Club has elected the following officers for the coming year: President, Mrs. Edmar Ketchum; Vice-presidents, Mrs. Harry S. Smith, Mrs. M. H. Taylor; secretary, Mrs. Nellie Wall; assistant secretary, Mrs. A. F. Wright; treasurer, Mrs. Fred Vossburgh; librarian, Mrs. Ray Robinson.

In Geneva Hospital Mrs. Henry Seybolt is in the Geneva City Hospital, where she underwent an operation for appendicitis Thursday morning. Her condition is reported as favorable.

Arrange for Meeting The committee in charge of the April meeting of the Chamber of Commerce has completed all arrangements. The meeting will be held at the Odd Fellows Hall Monday evening, April 19. Dinner will be served at 6:30 o'clock by the Rebekah Lodge. All members of the chamber and their wives or friends and all other interested persons are invited. The Finger Lakes Orchestra will furnish the musical program following the dinner. Rev. A. C. Hinman, of the First Baptist church of this village, will be the speaker of the evening. He will speak freely about what he considers to be the outstanding needs of the community as he has seen it during the five years here as pastor. Mr. Hornman leaves Dundee this month to take charge of the Baptist church at Fulton.

CATON CENTER

To Present Play. CATON CENTER, Apr. 17.—There will be an entertainment at Grange Hall, Friday evening. A one-act play, "Packing a Missionary Barrel" will be given by ladies of the Baptist Church.

Mrs. Bert Richards is ill at her home here. Dr. J. King, Mrs. S. H. Schutt, Mrs. F. E. Speer attended the lecture by Dr. Garsard at the Women's Club Rooms, Tuesday afternoon.—Mr. and Mrs. F. E. Speer were dinner guests of Mr. and Mrs. H. Schutt, Sunday.—Mr. and Mrs. Roy Wilcox and family of Horseheads spent Sunday here.—Mr. and Mrs. Charles Terwilliger of Brownsville spent Sunday with Mr. and Mrs. Milton Smith. Mrs. George Gregory and Mrs. Burt Walney visited Mrs. S. H. Schutt, Thursday.—Mrs. S. H. Schutt, Philadelphia, Pa., visited here, and Mrs. E. M. Deventer last week.—Mrs. William Held and children of Elmira visited her sister, Mrs. Roy Grindley last week.

Mr. and Mrs. Lee Kelly and family of Millport, were guests of Mrs. D. H. King, Sunday.—Mrs. Chester Hildart and daughter, Elizabeth of Elmira, returned home Sunday after spending a few days at the home of S. H. Schutt.

NOTICE TO THE PUBLIC

FINE PROGRAM IS PRESENTED

Church Class Clear \$23 from Entertainment Given by Corning Talent

The Sunday School Class of the North Baptist church, taught by Mrs. Leon W. Taylor, cleared over \$23 at program presented Thursday evening in the church under the auspices of the class.

The program was one of the most successful ever presented. Talent outside the church was invited to appear on the program as well as church talent. Proceeds of the entertainment will be put in the building fund pledge of the class.

Instrumental and vocal musical numbers and readings were all equally enjoyed, practically every one on the program having to respond with an encore. One especially interesting number was the whistling selection by Mrs. Chauncey Kimball. The Wm. G. Bostwick Quartet was unable to appear due to the illness of one of its members, so Arthur Lofgren, popular young violinist, substituted for them. Another addition to the program was the piano solo by Werner Jeddeman.

The complete program follows: Selection, Orchestra; prayer, Rev. F. P. Hawley; reading, Miss Mildred A. Kettley; soprano solo, Mrs. Truman Jacoby; trombone solo, Percy Smith; baritone solo, Earle Barrett; violin solo, Theodore Baantier; reading, Miss Katherine Lee; soprano solo, Miss Leona Challingsworth; piano solo, Mrs. Chauncey Kimball; tenor solo, Joseph Falk; soprano solo, Mrs. Florence Baker; piano solo, Miss Pauline Dentler; whistling selection, Mrs. Chauncey Kimball; violin solo, Arthur Lofgren; singing. Selection, orchestra; saxophone solo, Garrison Latour; piano solo, Werner Jeddeman; reading, Mrs. Evelyn Rose; piano solo, Miss Gertrude Lantz; soprano solo, Mrs. Doris DeWolf; selection, orchestra.

Not One American Car Lasts As Long As Reo Not One

The following statement is based on figures obtained from thoroughly reliable, disinterested sources. It gives the names and relative standing of the four longest-lived American cars. There is a difference between automobiles of various makes. One of the greatest differences is in lasting quality and in all that it means to the owner's purse.

We could hardly believe the figures when they were first brought to us.

It did not seem possible that the Reo, always a moderate priced car, could outlive even the costliest creations of American automobile manufacturers.

So we had the figures checked again.

And again—and yet again.

After all the checks had been made the amazing facts remained unchanged.

The four longest-lived cars

Reo automobiles have a longer average life—a much longer average life—than any other American automobile.

Second to Reo in average length of life are the big Pierce-Arrows.

Third are the Cadillacs.

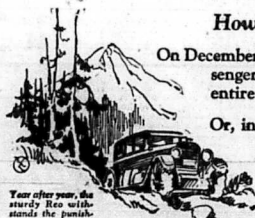

Fourth are the Franklins.

These four makes of automobiles, and these four, have a proved average life of more than eight years.

The cars whose records were compared

Reo, Pierce-Arrow, Cadillac, Franklin, Stearns, Locomobile, Stutz, Paige, Kissel, Marmon, Chandler, Velie, Buick, Case, Dodge, Packard, Hudson, Hugmobile, Davis, Willys Knight, Jordan, Studebaker, Peerless, Auburn, Nash, Overland, Oldsmobile, Oakland, Chevrolet, Moon.

A number of American built cars are missing. Some of these are cars whose production has been so small that registration figures are not obtainable. The others have not yet been tested by the years, or are no longer built.

Year after year, the sturdy Reo withstands the punishment of the highways, making its owner thousands of miles of carefree, economical transportation beyond his wildest expectations.

The test

The only way to judge the life of the average car you or anyone else may get, is by the life of ALL the cars of each maker.

Take the total production of passenger cars for each make for the last eight years. Compare these figures with the number of cars of each make registered on December 31, 1925, as compiled by R. L. Polk & Company, automobile statisticians.

This method eliminates statements of opinion, protects buyers from making judgments on the basis of the performance of a few cars out of hundreds of thousands—cars often driven by mechanics or dealers and repaired or rebuilt at any cost.

How they rank, in actual figures

On December 31, 1925, there were 24.9% more Reo passenger cars registered than have been built in the entire last eight years.

Or, in other words, Reo had 124.9% of its last eight years' output in registered use.

The only other cars having more than 100% of their production registered were: Pierce-Arrow with 10.1% more, Cadillac with 8% more, and Franklin with 4.9% more.

Remember the respective costs of these cars and then again compare the records:

Reo . . .	124.9%
Pierce-Arrow . . .	110.1
Cadillac . . .	108.0
Franklin . . .	104.9

Tested for nine years or seven years, Reo retains its leadership. And it is significant that, in this long life league, Reo's constantly improved construction has greatly increased its lead over other cars in its price class.

Women especially, appreciate Reo's easy and simple Split-Second Control. Today only Reo offers Split-Second Steering, Split-Second Braking Plus Standard Gear Shift and Standard Control.

What This Means in Dollars to You.

- 1—It means that repair and maintenance costs are very low or Reos could not be kept running so long.
- 2—That you ride carefree, economically and comfortably because the engineering which gives Reo long life must provide against wear, against breakdowns, for low operating costs, and for protection against jolts and jars of the roads or Reos would not last.
- 3—That Reos hold their appearance for so long that buyers keep them year after year . . . no car whose frame will sag, whose upholstery and fittings deteriorate rapidly would be in service so long.
- 4—You can buy long life at a moderate price.
- 5—This long life means that Reo cars cost very little in depreciation because their cost is spread over so many years.
- 6—That re-sale prices of Reos are always higher than the average because there are so many thousands of unused miles left in them.

The new and improved Reo offers you all the fine qualities that have been Reo's for so long, plus such outstanding developments as Split-Second Steering for the easy handling of balloon tired Reos, Split Second Braking with Standard Control and Standard Gear Shift, lengthened lines, more luxurious appointments and many minor refinements.

Come in and see this very good looking, moderate priced car, which outlasts all the creations of all other American manufacturers.

INVESTIGATION IS UNDER WAY

Wether Officials Nor Corning Man Able to Determine Responsibility for Accident

Whether Anthony Current of this city was the driver of the automobile which struck and fatally injured Thomas Gallagher of Grand Falls, R. I., near Bath last Monday night has not been fully determined as yet according to reports made today. Various circumstances connected with the accident point to Mr. Current's car as the one which struck the man but neither the nor county officials have been able to determine this.

Coroner S. Z. Lebeck, of Bath, has been ill for the last few days and for this reason no inquest of this case has been held. It is probable, however, that a coroner's jury will be called to gather sometime early next week as was today.

The man was found late Monday night lying along the state highway, just west of the village and was removed to the Bath hospital where he died after a few internal injuries. Before dying he gave the name of Charles Butler and said that he had neither home nor kinfolk. Later army discharge papers bearing the name of William H. Hawer, of New York City, were found on his person but in violation by the Bath police department that this was not his right name. Late last night it was learned that his name was Thomas Gallagher, of Grand Falls, R. I. His remains have been shipped to relatives in that place.

Mr. Current was returning from Olean early Tuesday morning, according to a report made at police headquarters here and when passing Bath two hours before he was by him, as rough looking attempted to stop him. Fearing that they were held up men he gave his car a quick twist to one side and avoided them or so he thought.

He went on through Bath as arrived home. Later while looking over his car he found one of the fenders bent and immediately came to police headquarters where he made a report of the accident. This was not connected with the happening at Bath until sometime later.

The Rev. E. M. Lynch, of Bath, verifies this story. He adds, that he too, was returning from Bath by motor when he was signalled by two men to stop. He passed without stopping but according to his story after he had gone a little way he stopped his car and looked back. He says that he saw another car coming down the road at a slow rate of speed and approaching the place where the men were. Suddenly he saw the car shoot ahead by the men and it then passed his car quickly. He however did not see any accident and thinking nothing more of it went on home.

Later the police found that Patrick Mullon, of Bath, was the driver of the car.

dead man's companion and his status that Gallagher and himself had become confused and lost their way. They decided to halt a car and ask a ride to the village. They stopped on the highway, which continued on its way. They then tried to stop the next car, which they mistook for the one which struck and this was when Gallagher was struck.

KERN ATTEMPTS TO TAKE LIFE

Found by Local Police with Towel Wrapped Around Neck; Removed from Hospital

An attempt "to end it all" made by Earl Kern, 23 year old Hancock, Pa., youth held in this city awaiting word from Potteryville, Pa., was frustrated last night by Detective Raymond Brooder and Officer Brown on guard over Kern, when they found him sitting up in bed in Corning Hospital, where he is confined, with a towel wrapped tightly around his neck so as to shut off his breathing. He was forced to unwind the towel and as a result of his attempt, he was today taken from the hospital and lodged in a cell in city jail, where he talked reporters bearing the name of William H. Hawer, of New York City, who were found on his person but in violation by the Bath police department that this was not his right name.

Late last night it was learned that his name was Thomas Gallagher, of Grand Falls, R. I. His remains have been shipped to relatives in that place.

Mr. Current was returning from Olean early Tuesday morning, according to a report made at police headquarters here and when passing Bath two hours before he was by him, as rough looking attempted to stop him. Fearing that they were held up men he gave his car a quick twist to one side and avoided them or so he thought.

He went on through Bath as arrived home. Later while looking over his car he found one of the fenders bent and immediately came to police headquarters where he made a report of the accident. This was not connected with the happening at Bath until sometime later.

The Rev. E. M. Lynch, of Bath, verifies this story. He adds, that he too, was returning from Bath by motor when he was signalled by two men to stop. He passed without stopping but according to his story after he had gone a little way he stopped his car and looked back. He says that he saw another car coming down the road at a slow rate of speed and approaching the place where the men were. Suddenly he saw the car shoot ahead by the men and it then passed his car quickly. He however did not see any accident and thinking nothing more of it went on home.

Later the police found that Patrick Mullon, of Bath, was the driver of the car.

RAILROAD MAN KILLED TODAY

Ernest Moulthrop Struck by Passenger Train When Blinded by Snow Flurries

Blinded by snow flurries, Ernest Moulthrop, 25, of Horzell, formerly of this city, was instantly killed this morning at 7:45 o'clock, when he was struck by westbound Erie passenger train No. 100, at the junction east of Elmira. According to information from Elmira, Moulthrop, who was a brakeman working on an eastbound freight had left his train and gone back to flag a following train for protection. Blinded by the snow flurries and unable to see the approaching engine, he stopped on the west-bound tracks directly in its path. Only meagre details could be obtained from Elmira and nothing is known as to the extent of his injuries which caused his death. He had been employed as a brakeman by the Erie railroad for only a short time.

He was born in this vicinity April 1, 23 years ago and had resided in this section during the most of his life. His early schooling had been obtained here. After leaving school he had gone to work on the farm of his uncle Charles Moulthrop of the River Road where he had lived for several years.

About six months ago he had secured a position with the Erie railroad and had since been working for them. He is survived by his father, Willis Moulthrop, of Cotterville, Pa., one sister, Alice, also of Cotterville, and two half sisters; one brother Earl Moulthrop, of Riverdale.

The remains are now resting in the morgue at Elmira from where they will be removed to the funeral home of Franz S. Phillips in that city today. Funeral arrangements will be announced later.

ONLY SMALL NUMBER FILE STATE INCOME RETURNS

Thursday was the last day for filing income tax returns and Jerome Carew, state income tax collector has returned to his headquarters at Rochester. Contrary to expectations the last number of returns filed by the collector did not develop and on Thursday only a few tardy cases straggled into the office to file their returns.

Mr. Carew said that it was certain that practically all of those required, had filed their returns and that there were but a few who had not complied with the law. These few will be dealt with later as a suitable penalty will be added to the amount which they are forced to pay.

The small number of returns made in this city are accounted for by the fact that by the increased exemption which is now the rule.

Deaths-Funerals

George Rosette

Word has been received here of the death of George Rosette, the former resident of this city, at his home in Toledo, Ohio. Death followed a two weeks' illness of pneumonia. Mr. Rosette was married Mary Flynn, of this city, at Wellsville, Pa. They lived in this vicinity until about 12 years ago when they moved to Toledo, Ohio, where Mr. Rosette accepted a position with the Overland Motor Car Corporation.

He was a member of the Catholic church. Surviving him are his wife, Mrs. Mary Flynn Rosette; five children, all at home; his mother, Mrs. Anna Rosette, of Wellsville, Pa., and eight brothers, James, William, Paul, and Joseph, Lewis, Edward, Frank, Thomas and Chaucey, all of this city.

The funeral was held this morning in Toledo. Burial was in Toledo.

Miss Shappee is bringing the action to recover \$250 for personal injuries sustained by her daughter in Mr. Pierce's car at the time of the accident.

Mrs. Hamilton operated Mrs. D. B. Hamilton, of Buffalo, who has been spending the winter with her sister, Mrs. S. E. Quakenbush of East Fifth street, underwent an operation for the removal of gall stones Thursday at Parker Hospital. Late reports are that her condition is quite serious. Mrs. Quakenbush is with her.

If you would enjoy much, contact much enjoyment.

SAFETY CARS DRAW CROWDS

Practically Every Central Employee Visited Exhibit During Past Two Days

Practically every employee of the New York Central railroad in the city, visited the two safety exhibit cars while they were open to public inspection at North Corning street, at the car shops or at Pine street, crossing. The cars have been closed and will leave the city Sunday evening for Newberry Junction, traveling from there on down the Beech Creek sub-division.

The cars have been in this city since Tuesday and have been on exhibition four days, two days being consumed at Pine street. Several showings of the safety films were made and at each place the modeling moving picture house

DEGREE CADILLAC \$3195 The Kind of Supremacy The World Expects in Cadillac Today, an army of more than 25,000 new Cadillac owners know how far-reaching and complete Cadillac supremacy is—and the new Cadillac is barely eight months old. Back in 1908, the designation of Standard of the World was conferred on Cadillac by the Royal Automobile Club of London, along with the first award to any American car of the Club's famous Dewar Trophy. And for the second time, in 1913, the Club awarded the Trophy to Cadillac, an honor never paid to any other motor car in the world. Standard of the World, Cadillac is today, in a new and more advanced sense, because Cadillac has improved upon itself, and given to the world the first car that includes masterful proficiency in each and every operating phase. Today Cadillac's position of twenty-four years has not changed, except that it is now grown enormously stronger with the coming of the new 90-degree, eight-cylinder Cadillac, and with the passing into other fields, or the complete disappearance of, numerous Cadillac rivals.
