NEW OVERLAND WHIPPET MODEL DESIGN RADICAL

It has been anticipated for some months that a larger American builder of motor cars would soon be on the market with European type low light car. The initial production of what may be the foremost of a complete change in our great mass production of light automobiles made its appearance this week. It is the Overland Whippet on which the engineers of Willis-Overland Inc. have been working, both here and in Europe, for the past two years.

of running which is new to our light car production. It is a quality product in every detail from the trim, smart, extremely low hump body with its brilliant finish and superb upholstery to the last detail of its mechanical construction. The sedan will travel 66 miles an hour, as easily and comfortably as the great majority of our present day "sixes" and yet it is equipped with a four-cylinder motor. It will accelerate from 5 to 15 miles an hour in 10 seconds. In just half a second more time than some of our lightest and most desirable "sixes" and it will cover 28 to 30 miles on a gallon of fuel. It will stop in a little over twice its own length from an average speed for it is equipped with four wheel brakes, having a drum diameter of 11 inches which is larger than those on many of our large cars.

The upper picture shows the Overland Whippet two door Sedan with its graceful lines and decided trend toward the motor car of foreign design. The interior view shows the roominess and comfortable pitch of the seat with leg room and head clearance ample. The lower, is of the Whippet Touring which carries the same lines and distinctiveness of a much larger car.

INCORPORATED 1899

THE FIRST NATIONAL BANK ADDISON, N. Y.

Ray B. Brown, Pres't. Edw. M. Welles, Vice Pres't. Z. D. Foland, Cashier

134.2 cubic inches, somewhat less than that of the average European light car, but less than any other American built four-cylinder car.

Low Body The roof of this new type car is only 8 feet 8 inches from the ground yet the room inside the body is greater than in any other light car on the market. Its first appearance is striking in the extreme.

Perhaps one of the greatest surprises this car has to offer outside its performance ability is the roominess in the body. And the body lines are artistic in every way. A conspicuous feature is the construction of the radiator which is formed by continuing the roof forward as a graceful down swinging curve. This is the smallest three wheel car of the best of cars and is a hallmark of quality in this Overland Whippet.

The radiator is conspicuously high and narrow and is housed in the appearance which is striking in the extreme. The body headlamps have nickel-plated shells and are strongly supported with a tie-rod at the front.

New Size Tires The tires present something entirely new. The tires in diameter with a 4 1/2 inch cross-section, and are of the balloon type. These are the smallest tires ever used as stock equipment but the tire makers have already anticipated a huge demand for this Overland Whippet and desire articulating three sizes at the present time.

It is the claim of the engineers that this size of tire on the Whippet will result in exceptionally long tire service and forecasts of as high as 20,000 miles to the set have been made.

Fine Appointments The interior appointments of this car are tasty in every way. The instrument board is of metal with a chromium-plated finish on a gracefully designed panel. The steering wheel is of nickel-plated and lighting switch, oil gauge, ammeter, speedometer and dash lamps.

A frosted glass dome light houses the rear compartment. Upholstery is of a fine ribbed variety of rich coloring and fine fabric. The levers for lifting and dropping the windows are nickel-plated.

The windows are unusually wide and the windshield is of the one-piece type which has come into fashion among the finer types of automobiles. In appointments as in design and performance this Overland Whippet is a distinct revelation in the light car field.

Mechanical Features As has been prophesied during the past few months, the first of the European type light cars to be built in this country is designed along the most advanced modern engineering lines to get a wide range of power and performance from small and efficient economical motor dimensions. The here is 2 1/2 inches over piston displacement of 134.2 inches. This is somewhat larger than most American built motors of stock production. The increase over the English and French designs is in the cylinder and piston valves certain performance features which are not to be paralleled by European units. It is said that this Whippet will climb any hill that any of our best light cars will climb in high and its economy in operation has already been demonstrated.

PAINTED POST Mrs. H. H. Wagner, of Daytona, Florida, and Mrs. W. H. Hooper, of Washington, D. C., are guests of Mr. and Mrs. William H. Mose, of East High street.

Today's Market Closing Prices

MARKET MIRROR NEW YORK, June 26.—(AP)—Friday's closing prices: 100 Railroad Stocks ... 188.50 ... 100 Steel Stocks ... 188.50 ... 100 Cotton Stocks ... 188.50 ... 100 Sugar Stocks ... 188.50 ... 100 Tobacco Stocks ... 188.50 ... 100 Petroleum Stocks ... 188.50 ... 100 Miscellaneous Stocks ... 188.50 ... Total stock sales 1,297,300 shares.

CONCRETE PRONOUNCED Prices Fluctuated Unevenly Through the Brief Trading Session. The conflict between buying and selling operations in the stock market became more pronounced today as the trading session, with an early selling movement encountering considerable resistance before the close. Indications of another firm recovery in the building sector were attributed because of the failure to obtain relief legislation, coupled with the heavy reports of building hesitancy in trade, supplied ammunition for the selling attack which centered on the building sector. The selling attack was supported by the fact that the building sector had been driven back and most of the members were under pressure.

Business Briefs STEEL SHARES displayed a relatively firm undertone with buying influenced by reports that new business in June exceeded that of May and by stiffening price tone. Steel shares were active in the morning but became quiet during the week. Oil shares displayed strength in response to reports of large current earnings. Reports of a decrease in crude oil production last week and merger gossip, but the rally, like many which have preceded it, failed to get through. Executives of some of the oil companies made optimistic statements on trade conditions. Maryland's 1926 election results were estimated from 112,000 to 113,000. Union Oil of California broke back on a denial of rumors linking that company with Maryland and Atlantic Refining.

NEW YORK COTTON MARKET NEW YORK, June 26.—(AP)—Cotton quiet; middling \$18.75.

Addison Men Started When Snake Falls at Feet; On High Scaffold

ADDISON, June 16.—Albert Breunlin and Archie Foster, who were working on a high scaffold at the residence of Judge A. S. Hook at Coudersport, Pa., Thursday, were startled when they saw a snake, nearly two feet in length, drop from a clear ledge and strike the edge of the roof near the eaves. Looking about, they could not solve the mystery until they noticed three hawks, flying overhead. It is the supposition of the two men that the birds had it and was dropped during the battle.

CHURCH NEWS OF ADDISON

Brains in Business

How intelligent should a business man be? It may be a new thought and yet it must be obvious that intelligence, according to the ordinary understanding of the word, is not everything. In a famous intelligence test to a "group" of successful business men, two or three of the lowest scores were made by presidents of their concerns. However, even these were fairly good for the average of American intelligence, suggesting that at least this minimum ordinary standard for success in business. In this connection, Dr. W. V. Bingham, director of the National Federation of Personal Research, raised the question of the relative importance of intelligence and of non-intellectual traits in business achievement. He asks whether beyond a certain point brains count more than character and personality.

"University teachers," he says, "are prone to magnify the importance of intelligence. It is indeed likely to be the chief factor in their own success. They tend to estimate the effectiveness of their colleagues in terms of intellectual accomplishment. They rank their students in order of ability to master and manipulate ideas. On the other hand, success is first of all a matter of getting things done. Ability to persuade and control people is an outstanding asset. Effectiveness within an organization demands such traits as dogged will, co-operativeness, energy, promptness of decision. It traits like these are present in high degree, a man may make a notable business even though his mental alertness test rating on the Army scale is only B or C. Intelligence there must be, above a certain minimum. But this minimum is, perhaps, not so high as is often supposed."

In One, Short Act

The scene is a shoe-shining parlor on Market street. The dramatic personae are the proprietor and a customer. The proprietor is a recent villain, but still speaking very broken English; an over-dressed young man who looks as if he is going to fall through his extremely baggy trousers and one other customer.

The other customer has merely a "listening part." Over-dressed Young Man (entering the parlor): "Hello, Tony."

Proprietor: "Hello, Bill."

Over-dressed Young Man laboriously climbs into a seat. Life is obviously wearying to him.

Proprietor: "Guess it's you what's all-shot, Bill. How you sags, hold job, make a man can't read the list of the French Revolution, noting its excesses and atrocities, without feeling that human nature is still in the primitive jungle and passions worked their worst."

Revenge is a skulking thing—a heine, curing, evil, and a thing of poison, self-mastery, uprightness and courage.

WHILE THEY ARE CUTTING THEM DOWN— By Ding

WHY NOT PLANT A NEW CROP ON OUR WASTE LANDS.

WHY NOT PLANT A NEW CROP ON OUR WASTE LANDS.

In L'il Old New York

By O. O. McIntyre... NEW YORK, June 26.—Broadway's blind man has a new stock, purchased, he says, from the street of pennies, dimes, nickels and even quarters which flow into his cup as the traffic's contribution to his support.

GREENWICH VILLAGE restaurant to expect a Spring influx of Bohemians, he says, but the apartments are being rented for "arty" interiors. If you scribble, there is the writer's favorite, the largest room in the apartment being a combination library and living room with one wall devoted exclusively to bookshelves. If you paint or sculpt, the inevitable skylight is provided. All apartments have the "homely" open fireplace reinforced, however, by up-to-date steam radiators.

THE CLOSING social and theatrical season has been marked by the revival of the silk hat to a point almost equal with pre-war fashion. When this mark of man's dignity was relegated to the dark closet many predictions were made that it never would return, but now no theatre crowd or social circle of men wearing the distinctive headpiece.

PARK AVENUE, often called the most fashionable street and undoubtedly the most expensive residential street in the world, is the touch of Spring from the other half of the world. Without trees or natural decorations the white brick promenade which bisects the street is used as an airing place by thousands of children and grown-ups from the congested districts, lobbed principally by immigrants, only two blocks away.

RASH BROKE OUT ON BABY'S FACE Would Scratch Terribly, Healed by Cuticura.

My baby's face broke out in a rash and would scratch terribly. It actually grew worse until his face was swollen and he could not sleep with it. It became very itchy and became very troublesome.

I began to bathe his face and hands, morning and night, with warm water and Cuticura. Soap then put on Cuticura Ointment. After a week or so the ointment began to disappear and after using one cake of soap and one box of Cuticura he was healed. Healed Mrs. H. J. McDermott, 374 E. Main Street, Chicago, Ill.

never been denied... the slightest reduction of the impulse to produce will at once create misery and want. If we threaten the fundamental impulses of man our production will decay. The world in this hour is witness to the most overwhelming tragedy of the ten centuries in the heart breaking life-and-death struggle which starved by a nation with a hundred and fifty millions of people. In Russia under the new tyranny a group, in pursuit of social theories, have destroyed the primary self-interest impulse of the individual to production. Although socialism in a national application has now proved itself with rivers of blood and inconceivable misery to be an economic and spiritual fiasco and has wrecked itself finally upon the rocks of destroyed production and social degeneration, I believe it to have been necessary for the world to have had this demonstration. Great theoretic and emotional ideas have arisen before the world's history and have in more than mere material bankruptcy destroyed the world with fearful losses of life. Purely philosophical liquor trade without a cent of compensation, with scarcely even a provision of it, does not bear out the notion that we give property rights any headway over human rights. Our development of individualism shows an increasing tendency to regard right of property not as an object in itself, but as the right of a useful and necessary instrument in individualism.

To all practical souls there is little use in quarrelling over the share of each of us until we have something to divide. So long as we maintain our individualism we will have increasing quantities to share and we will have time and leisure and taxes with which to fight our proper share of the "surplus." The income tax returns show that this surplus is a minor part of our total production after taxes are paid. Some of this "surplus" must be set aside for rewards to saving, or stimulation of proper effort to skill, or leadership and invention—therefore the dispute is in reality over the creation of the "surplus." While there should be no minimizing of a certain fringe of injustices in sharing the results of production or in the waste of labor, made by some of their share, yet there is vastly wider scope for gains to all of us through cheapening the cost of production and distribution through the elimination of their wastes, from increasing the volume of product by each and every one doing his utmost, than will ever come to us even if we can think out a method of abstract justice in sharing which did not stifle production of the total product.

It certainly we are confronted with a population in such numbers as can exist by production.

But those are utterly wrong who say that individualism has as its only end the accumulation and preservation of private property—the selfish snatching and hoarding of the common product. Our American individualism, indeed, is only in part an economic creed. It aims to provide opportunity for self-expression, not merely economically, but spiritually as well. Private property is not a fetish in America. The crushing of the liquor trade without a cent of compensation, with scarcely even a provision of it, does not bear out the notion that we give property rights any headway over human rights. Our development of individualism shows an increasing tendency to regard right of property not as an object in itself, but as the right of a useful and necessary instrument in individualism.

Claiming that the changes in styles that caused the abandonment of quality of cotton blouse and underwear, had ruined his business, a cotton manufacturer in England recently filed a petition in bankruptcy.

# Eli Crewmen Vanquish Harvard to Win 6th Straight Race

## YALE VARSITY EIGHT BEATS CRIMSON CREW BY 2 LENGTHS

NEW LONDON, Conn., June 26.—(P)—The mighty power of Yale's varsity crew met Harvard's greatest challenge last evening and repulsed the Crimson's greatest bid for rowing glory in four years.

Taking the lead soon after the start and setting the pace from then on to the finish the brilliant Eli eight stood off every thrust of the Cambridge crewmen and crossed the finish line of the four mile race fully two lengths in front.

There seemed scarcely any doubt of the final outcome at any stage of the race, in spite of Harvard's courageous efforts throughout the length of the picturesque Thames river course. The official times were: Yale 20:14 2-5; Harvard 22:12 1-5.

Yale's triumph in the struggle that brought the 45-minute regatta to a climax, came after Harvard had broken the grip of half four supremacy, by winning the two preliminary races in the morning, for the first time since 1922.

The Crimson's hasty recovery, however, was not enough to overcome Yale's makeshift yearling boat by the first race of the day, after which the junior varsity eight from Cambridge, outfought the varsity crew of their rivals, to win by two lengths, both victories coming in two-mile tests.

Yale's triumphant return to the start at stake, as the "varsity" crew, in the gathering dusk, to the starting marks of the varsity eight, but the convincing nature of Eli's closing victory was characteristic of the tradition of supremacy it has set up under the

### ALL SET FOR POUGHKEEPSIE

coaching guidance of Ed Leader. The Blue victory not only saved the day, but marked the sixth straight time Harvard has been vanquished in the varsity race since an achievement which equals the best previous record in the long history of the regatta. Since before 1900 to 1905, Yale enjoyed a six-year stretch of triumph, while Harvard, from 1908 to 1913, duplicated this feat.

Yale, too, celebrated last night her fourth straight year of unbroken triumph in varsity competition, under Leader's guidance, a record which has no parallel in modern college rowing annals and few rivals where in the ancient history of the sport. In that span of time the Eli varsity combinations have rolled up fifteen victories over opponents at home and abroad.

Yale Increases Lead. Yale actually led the race, as it turned out, in the first half mile for it was in this short space that the Blue tipped over a mark which Harvard's initial lead and pulled their shell out into a lead of a length and a half. From there the mile to the three mile mark, Yale rowing a smooth, space defouring stroke of 22 beats to the minute, increased its margin from one to two and a half lengths. Here Harvard made its final bid and did such cutting down some of the margin in the two strokes had observed in reserve and in the last dash it was Yale that had the strongest finishing punch.

### Feg Murray

During their long stay at home the College should advance steadily in the direction of the league leadership. Victory in today's game against Wilkes Barre could advance them to second place.

TO END LAW OF ENTAIL. England's age-old law of primogeniture, by which the eldest son inherited all the property and the other children got nothing, is probably to go. A proposed new law would divide all the estates not disposed of by testament without respect to age or sex. So goes the last bulwark of England's landed aristocracy. The new law will break up the large estates in a few generations.

## Be SURE LIGHT

JACK QUINN, FORTY-TWO "I've got six good reasons," says old Jack Quinn, "For playing this game; Six pretty good reasons with nothing to do About glory or fame; Six pretty good reasons, if you'd like to know, For ducking the kids; And these are the reasons I'm hanging around— A wife and five kids."

Twenty-four seasons of plogging along And doing his stuff; Keeping in shape and winning his share And calling Time's "You can't do much slipping," says old Jack Quinn, "You must double their bids; You can't do much stalling or loafing or quitting With a wife and five kids."

No single university has dominated both land and water as Cornell, Pennsylvania, and Syracuse have to offer. Why is it that some of the four last-named institutions have finished better than third in the last five varsity regattas? Is it material, environment, Cornell has surely taken an awful flop in rowing. After winning eleven of the first sixteen years we find the Ithaca fifth in 1925. Columbia and Penn have each won

one varsity race, but now Penn is looked upon as a dark horse, while Columbia, in spite of the coaching of the Glendons, who brought the Navy across the line first last year, is dooped to finish last. Material and environment handicap the Blue and White, certainly not coaching.

Syracuse, five times winner of the Big race, was next to last in 1925, but may spring a surprise on Monday, in James Ten Eyck, the "Grand Old Man" of rowing, and veteran of all crew coaches in the country since the death of "Pop" Courtney of Cornell, the "orange hoasts" of one of the best teachers of rowing in the business today. Himself a former "man of international reputation," he has been at the helm of

Madison's college to put out such good crews when they have absolutely no competition at home, no early spring training, and are handicapped in many ways by the conditions under which they practice is no great mystery. Let they have finished second and third in the last two years. How come? The answer—"Duh" Vail.

I dreamed that I saw eight rowing crewmen standing on the high bridge over the Hudson. At a given signal they all cant their rowing shells into the river, and soon two of them floated on ahead of the rest. They were marked with the words "Navy" and "Washington." Next came Wisconsin, Penn, California, Syracuse, Columbia, and Cornell.

But don't bet on it ending that way!

COLONELS TO PLAY AT ELMIRA FOR FEW DAYS

ELMIRA, June 26.—The Colonels will close their road trip today and on Sunday they will return home to open a three game series against the Wilkes Barre Barons. Sunday's contest will mark the beginning of a long home stand for the local outfit.

The Colonels have been playing a good brand of baseball while on the road and will return home within striking distance of the league leaders. The team has broken even in the trip, having won four games and lost seven to date. It broke even in a four game series with Shamokin, lost three out of four to Williamsport, captured two out of three with Scranton, and gained an even break with the Barons. It has long been the contention of baseball critics that a team that breaks even away from home always is a dangerous pennant contender.

CAMPBELL AND BATH NINES CLASH SUNDAY

Campbell Town team will fill a fast ball Sunday afternoon with "Bull" and "Red" O'Hara, of this city, as its battery, when it will meet the fast Bath nine at Campbell, Chase, no-hit-tee-run pitcher, who is one of the best hurlers in this section, will be on the mound for Bath. He recently entered the hall of fame list by a perfect game, allowing them not a single hit nor a run.

A mighty pitching duel might be expected if both O'Hara and Chase are going good. O'Hara has been pitching with the University of Pennsylvania. Frosh nine and has made some record for himself.

Cornell's Rebuttal

Dear Sir: The articles which were printed in one of the papers that "The Navy has the finest record at Poughkeepsie and that Cornell's supremacy has been proved to be right except for one thing—it is entirely incorrect."

Cornell, as every one interested in rowing should know, has never failed to participate annually at Poughkeepsie against all comers since 1871. Cornell still holds the record of having won at Poughkeepsie and elsewhere more than half its varsity eight crews.

Further than that, it has contributed more to rowing than any other college in America, the reason often can be such a thing as the American stroke today it has its fundamental basis in the Cornell stroke. The Navy has won three out of its last five starts, but Cornell's success dates back to 1871, when it defeated thirteen other colleges at Saratoga. Cornell may have been waded since the death of Courtney, but it has never done less well than when there appeared to be stronger crews. Navy boats or any other, this might meet Cornell's return, "What you are today we were often and long ago."

Cornell, '12.

# IMPS TO PLAY BLOSS SUNDAY

### Fast Pennsylvania Team Will Come Here to Meet Rand Ball Tossers

Tomorrow will test the strength of the Imperial baseball team as they are pitted against the fast Blossburg team at Imperial Park diamond. The game will be called at 3:30.

Sandusky is one of the best pitchers that Bloss has ever had in the lineup. He has an average of ten strike outs for every game. Keets is about the same grade pitcher as Sandusky. He has an average of eight strike outs for all games. Both these men, if worked, will find that the Imps have the best bet they ever had in the mound men. In Cushing. He has an average of fifteen strike outs for every game, and is just in the prime condition to hold up his record for tomorrow.

Dr. Davies, who is managing the Blossburg team has put some of the best teams on the field that Blossburg has had. He is a capable manager. If the Imps have tomorrow is anything like the teams he had in the past, the game will undoubtedly be one of the best that the season holds for Corning fans.

Rock will be brought in out of the field to third base to fill Hanley's position. Today, it could not be learned just who would go into the left field place. It is thought that Frank Lewis may take the place. The rest of the Imperial's lineup will be just the same as it was last week. Cushing, pitcher; Wilson, catcher; Woodard, first; Comosh, second; Ferguson, third; Markert, short; Tomlin, right field; Center, center; and probably Love left field.

The Blossburg line: Mand catcher; Sandusky and Keets, both very good pitchers; Bailey at first; Babe on second; "Buck" on short stop; P. Shultz on third; C. Shultz in left field; Adams in center field and Davis in right field.

# BENEFIT BALL GAME IS TODAY

For the benefit of Earl Burley, resident of South Corning, who was injured over two weeks ago in a baseball game, the Corning Free Academy Alumni and the Crystal City club, composed of Corning Free Academy varsity pin members, are playing this afternoon at Denison Park. The proceeds of the game will be devoted to pay the expenses of hospital and medical treatment.

The game does not start until 8:30 o'clock and so if you have not planned upon being there, do not miss it. Aside from the basis of sportsmanship, the game will furnish a nip and tuck struggle between two teams who are set to defeat each other.

The Alumni nine was recently defeated by the Academy outfit in a hard struggle at Denison Park. This is the first defeat which the Alumni has ever taken at the hands of a school nine and they are set to reverse this mark on their record.

# HAMMONDSPORT PIRATES READY TO MEET ADDISON

HAMMONDSPORT, June 26.—With "Mike" Brace and the entire pirate crew in the tank of condition it is expected the locals will furnish plenty of opposition for Harold Vastbinder and his fast Addison outfit Sunday.

The Addison lineup includes such notables as "Nat" Williams, "Tom" Tobin, Charles Kane, "Fungie" O'Keefe, Woodburn and Leavy.

Either Don Kelly, Hornell ace, or Bill O'Hara of the Penn. Frosh or Woodburn of Canisteo will be on the mound for Addison.

With such an array of talent, Mr. Vastbinder states that his aggregation can defeat or battle on even terms any amateur ball club in the Southern Tier.

### An Amazing Invention

FOR the first time, it is possible to get a glass enclosure for an open car that can be put on or taken off in a matter of minutes, easier and quicker than celluloid side curtains, and that can be carried in the car.

# MAJOR LEAGUE TEAMS RUNNING WILD; 88 RUNS IN 6 CONTESTS

### Bob Meusel Injured as Yanks Beat Red Sox; Browns Trim Chisox; Reds Down Pittsburgh and Gain Premier Position. Jess Barnes Out—Hurfs Brother

(By The Associated Press)

Six games in the major leagues yesterday produced 88 runs, an average of almost 15 a contest. The American League scored 45 and the National 43, each circuit playing three games.

The New York Yankees strengthened their hold on first place in the American by downing the Boston Red Sox twice, 12 to 2 and 11 to 4. The Yankees piled up an early lead in the opener, aided by a home run clout from the bat of Tony Lazzeri, his tenth encounter. Babe Ruth registered his twenty-fourth homer. Bob Meusel was injured in a slide to second base in the second contest and was carried from the field.

Red Faber managed to improve Chicago's second place position but failed before the slugging of the St. Louis Browns who drove him from the mound in the third and continued their assault on Thursday to win, 11 to 4. Bing Miller

recently obtained by the Browns from the Athletics in a trade, hit a homer, triple and single, while Manager George Sinker recorded four one-base smashes.

Cincinnati gained title to first place in the National League by beating Pittsburgh in a hit fest 5 to 8. The Reds obtained 17 safe hits for a perfect batting day. Walter of the world champions had five singles for a perfect batting day. Bresler led the Cincinnati attack with a triple and two singles.

A battle of brothers occurred at Brooklyn where Jess Barnes of the Dodgers out-pitched his brother, Virgil of the Giants to win, 7 to 4. Only six singles were garnered from the delivery of the veteran Jess, while his mates pounded the brother for nine to seven frames when he was relieved by Chick Davies.

Hokan and Bancroft hit home runs in another battle of bats at Philadelphia, the Phillies winning when he was relieved by Chick Davies.

The only state that permits women to work 21 hours a day on the state of matrimony.

### ALL HIGH BASEBALL TEAM HAS NO GAME FOR THIS WEEK END

Corning All High baseball players will remain inactive this week according to Manager Edward J. Valloy who stated that they were unable to schedule a game with any opponents for either Saturday or Sunday. The management of the team has been in communication with several teams including the Elmira Postoffice and the Campbell Town team but were unable to agree upon terms.

However, Manager Valloy states that the team has scheduled several test games and will not be without a contest on any other week end during the season.

The fast Savona nine and the All High will hook up on July 15 at Savona in what is expected to be one of the best games of the season. Savona lays claim to having the cleverest, classiest, sentry aggregation in this section, a statement which is disputed by several teams around here and this game will prove the All High's chance to bury this claim.

# NEWARK NOW HOLDS TEAM BATING HONORS IN THE INTERNATIONAL LEAGUE

NEWARK, June 26.—(AP)—Newark has taken team batting honors from Baltimore in the International League according to official statistics issued today which include games of Wednesday.

Newark's slugger, led by the former major league second baseman, Lew Fonseca, are setting a dizzy pace, and the team has compiled a batting mark of .308, placing it three percentage points

ahead of Baltimore and seven ahead of Buffalo.

Twenty-six home runs were added during the week for which averages are issued and creation of a new record appears probable, although the long distance clouting has fallen off somewhat.

Jimmy Walsh, Buffalo outfielder and Fonseca, playing second base for Newark, are the only batters over the 400 mark, Walsh leading with 404 and Fonseca having 401. Other leaders among the stickers are: Clark, Syracuse, 378; Sheedy, Baltimore, 374; year.

Larry, Toronto, 354; Baltimore, 344 and Redwan, Buffalo, 348.

Austria now has 40,000 more unemployed than at any time last year.

# The Story Spreads The most powerful motor of its size

### 500 more sold today. Study the trend

**It has:** Speed between 60 and 70 honest miles an hour.  
Extraordinarily long sustained high speed.  
Power on any hill to pass most cars in high.  
Quick as a cat—acceleration 5 to 25 miles in 7 1/2 seconds.  
Powerful four-wheel mechanical brakes, the last word in safety.  
54 horsepower, long stroke motor, rated at 20.  
The tax saving is only part of its economy.

The motor of the new "70" Willys-Knight Six requires no carbon-cleaning... It has no valves to grind... It has no springs to weaken.

It is practically fool-proof and wear-proof... So far as we know, no Willys-Knight motor has ever worn out.

Sales prove this new "70" Willys-Knight Six is the most suitable car for most families. Please ride in it. You will find it the most economical and continuously satisfactory car you can drive.

The new Willys Finance Plan means less money down, smaller monthly payments, and the lowest credit-cost in the industry.

"70" Willys-Knight Six from \$1295 to \$1495; Willys Knight Grand Six, a luxury car as superior in its class as the "70", from \$1750 to \$2495. Prices f. o. b. factory. We reserve the right to change prices and specifications without notice. Willys-Overland, Inc., Toledo, Ohio.

"LIKE a comet." This is the way the new "70" Willys-Knight Six burst across America's motor-car firmament. The evidence is conclusive. Only 6 months old—yet 30,000 sold in the past 90 days. This new "70" Willys-Knight Six is admittedly the most up-to-date car in America. It has the most powerful standard motor of its size so far produced in this country. Tests prove it the most efficient automobile built—and the most active.

The motor of the new "70" Willys-Knight Six is an exclusive feature—the famous Knight sleeve-valve motor, patented—which other manufacturers would give millions to get. Quieter, more powerful, more efficient than any other motor of its size when new, the Knight sleeve-valve motor grows smoother, more powerful, more efficient with every mile.

PETEY—The Great Suit-Case Mystery By C. A. Voigh
-UNCLE PETEY WILL YOU PLEASE HELP ME TAKE MY LUGGAGE DOWN!
-GOSH, MABEL! WHERE ARE YOU GOING WITH ALL THIS STUFF?
-VISITING THE SWANKS AT THE BEACH FOR A WEEK! END-

This New Car Offers: 30 miles on a gallon of gasoline, 55 miles an hour—5 to 30 miles in 13 seconds, 4-wheel brakes—stops in 51 feet from 40 miles an hour, Turns in 34-foot circle—easiest car in America to park, 5 feet 8 inches high—lower gravity center—greater safety, European-type body—more inside room than any other light car. A three-minute study of these remarkable facts may save you from buying an obsolete automobile.

AND YOU NEED ALL THIS STUFF? -YES -NOES -I MUST HAVE THOSE TO IMPRESS THE SERVANTS - I HAVE ALL MY WEARING APPAREL IN THIS HAND-BAG!

WILLYS OVERLAND Whippet America's New-Type Light Car
This is the announcement of a revolutionary new type car, different from anything you have ever known before. A car that combines the advanced engineering practice of Europe with new and improved standards of American performance. This new car has a low, European-type body. With height and length in true proportion, it is 5 feet 8 inches high... it provides more room and comfort than you've ever found in any automobile of this class before.

# NO CAUSE IN DAMAGE CASE

## Plaintiff Sought \$5,000 for Injuries to Hand in Enailage Cutter

A jury in Supreme Court at Hornell late yesterday afternoon brought in a verdict of no cause of action in the case of N. Spaulding Locks of Kanona against Ernest T. Smith and his wife. The plaintiff claimed that by reason of his hand catching in an enailage cutter while he was employed by Smith, his hand had been permanently crippled.

The plaintiff asked \$5,000 for the action. Attorneys C. E. Knapp and Nath appeared for the plaintiff. Lewis and A. Spaulding C. Oig for the defense assisted by Attorney James McCall of Bath.

# MRS. FRED GEE HONORED WITH VARIETY SHOWER

Mrs. Harry Smith and Miss Gertrude VanEtten, of this city, and Mrs. Chester Edwards, of Fredonia were hostesses at a variety shower given last evening at the home of the latter in honor of Mrs. Fred Gee, formerly of this city, and now of Middlebury. Mrs. Gee was the recipient of many beautiful and useful gifts. She is a former Northside High School student and a graduate of Wellboro High School and Mansfield Normal School.

Games and an informal social program provided the entertainment for the evening. Raymond Long rendered a beautiful violin solo and Miss Helen Kephart gave several vocal selections. Delicious refreshments were served.

Those present were: Miss Helen Kephart, Gettrude VanEtten, Helen Chamberlin, Edith Mallett, Kathryn Lyon, Norma Edwards, Mrs. Harry Smith, Mrs. Chester Edwards, Howard Edwards, Mr. and Mrs. D. E. VanEtten, Raymond Long, Paul and Raymond VanEtten, Paul J. Miller, Frederick Hamilton.

# PLAN CARNIVAL TUESDAY NIGHT

## All Arrangements for Girl Scout Function at Association Hall Complete

Plans for the Girl Scout Carnival Tuesday evening at 7:30 o'clock in the Fall Branch Association building at the corner of Broadway and State streets, will be held on Tuesday night. The success of the committee depends on the cooperation of the members of the public.

Most of the plans for the booths are already completed. There is a large number of booths, especially the booth which will be held in the house, baked goods. A large number of hours will be in the city, all included in the list of the best cooks this city affords, have promised articles of food for this booth.

# MRS. SEBRING IS SELECTED

## Named Vice-chairman of Steuben County League of Women Voters

Mrs. James O. Sebring has accepted the position of vice-chairman of the Steuben County League of Women Voters from Corning in the newly organized Steuben County League.

As a result of her visit the Steuben County League has been organized in an effort to establish more firmly the various sub-leagues that have been organized from time to time in this county. According to the new plan, the county league will be composed of all those women who belong to the smaller leagues or who desire to join a league. For the present at least, there will be no Corning League or Hornell League but the one central organization.

Officers from various cities and towns have been selected to start the new organization. Election of officers will be held next fall. Meanwhile plans will be made for the promotion of the league in the county.

# Vicinity Deaths

**FRESHO, June 26.**—The funeral of Fred Tolle, who died yesterday morning of heart trouble, was held from the family home Thursday afternoon, at the home of W. Tyler, officiating. Burial was in the Fresho cemetery.

## State Drive IS ORDERED

State Motor Chief Asks Co-operation of Police on New Licenses

"As nearly 10 per cent of the fatal accidents of the past year have been caused by unlicensed drivers, it became a matter of utmost importance in the interest of the public that the incompetent and unlicensed driver be eliminated from the highway," declared a communication received by Chief of Police A. W. Eickson from Charles A. Harsett, commissioner of motor vehicles. The local police department is requested to co-operate in the state-wide checkup to force all drivers to have licenses.

## Kellher-Milan

At 10 o'clock this morning at the Church of Our Lady, Assisi, Fourth Avenue and Seventy-fourth Street, was solemnized the marriage of Miss Ethel Veronica Kellher, daughter of Mrs. Daniel Kellher, formerly of this city, to Thomas James Milan of New York. The Rev. Henry W. Churchill officiated.

The bride was becomingly attired in white georgette with lilac-of-the-valley. The bride's only attendant was her sister, Miss Edith Kellher. The best man was Robert C. Kramer, of Huntington, Long Island.

The ushers were Frank McKee of Brooklyn and James Ireland of New York.

Immediately following the ceremony was held at the New Club House of the Knights of Columbus, Prospect Park West, Brooklyn.

The bride's family for many years resided in 150 West Second street, this city, and is well known in Corning. The bride is a graduate of Corning's Commercial School, Corning Free Academy and Genesee State Normal School. For two years after her graduation she taught in the public schools of Long Island. She is now on the staff of William J. Tully, general solicitor of the Workmen's Compensation Bureau in New York, where she has since been at the head of the Workmen's Compensation Bureau of the Law Division.

# ROSE IS GIVEN REGULAR POST

## Probationer Appointed to Police Force; New Eligible List Asked

The police commission at its regular meeting held last evening passed a resolution requesting the Civil Service Commission to provide an eligible list from which appointments to the force could be made.

Patrolman Howard Rose who has been on probation for the past year was given a regular appointment last evening and this leaves only one name on the eligible list. This is Patrolman Robert Cook.

A communication was received by Lambert Keyes, a former member of the department, who requested that his name be reconsidered for appointment to the force. No action was taken.

Charges were preferred against Keyes some time ago when it was claimed he was working for the New York Central railroad at the time Mr. Keyes resigned after five years he had been made.

Mrs. Julia Gillard, police attorney, in a communication addressed to the commission requested
